

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

AS Critical Thinking for AQA Oliver McAdoo, 2014-01-14 *AS Critical Thinking for AQA* is the definitive textbook for students of the current AQA Advanced Subsidiary Level syllabus. Structured very closely around the AQA specification, it covers the two units of the AS level in an exceptionally clear and student-friendly style. The chapters are helpfully subdivided into short digestible passages and include intended learning objectives at the beginning of each chapter, student exercises at the end of each section with a stretching activity for more advanced learners, exam-oriented questions, key point summaries at the end of each section, cross-references. In line with the AQA specification, there is a heavy emphasis on more imaginative forms of source material, for example music, film, artwork, historical documents, adverts, moral dilemmas and scientific debates as a means of illustrating key points. A great deal of emphasis is also placed on live or real arguments, taking topical examples from the world of science, politics, entertainment and sport. The book is accompanied by a companion website with extensive resources for both instructors and students.

The administration of examinations for 15-19 year olds in England Great Britain: Parliament: House of Commons: Education Committee, 2012-07-03. This report from the Education Committee looks at the administration of examinations for 15-19 year olds in England. The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content. Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated. The Committee considers a number of options to change incentives, including:

- A single board. This offers a simpler system with no risk of competition, but the Committee believes the cost, risk and disruption outweigh the benefits.
- Franchising of subjects to exam boards. This removes syllabus competition but again has downsides.
- Or the current system of multiple boards. The Committee sees no benefit in competition on syllabus content, but the setting and marking of exams and associated administration, if properly regulated, could generate incentives and drive quality up, offering value for money to schools and colleges. The Committee also recommends the development of national syllabuses accredited by Ofqual. The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate.
