New Approaches to Religion and the Enlightenment Brett C. McInelly, Paul E. Kerry, 2018-11-09 The Enlightenment an eighteenth century philosophical and cultural movement that swept through Western Europe has often been characterized as a mostly secular phenomenon that ultimately undermined religious authority and belief and eventually gave way to the secularization of Western society and to modernity To whatever extent the Enlightenment can be credited with giving birth to modern Western culture historians in more recent years have aptly demonstrated that the Enlightenment hardly singled the death knell of religion Not only did religion continue to occupy a central place in political social and private life throughout the eighteenth century but it shaped the Enlightenment project itself in significant and meaningful ways The thinkers and philosophers normally associated with the Enlightenment to be sure challenged state sponsored church authority and what

they perceived as superstitious forms of belief and practice but they did not mount a campaign to undermine religion generally. A more productive approach to understanding religion in the age of Enlightenment then is to examine the ways the Enlightenment informed religious belief and practice during the period as well as the ways religion influenced the Enlightenment and to do so from a range of disciplinary perspectives which is the goal of this collection. The chapters document the intersections of religious and Enlightenment ideas in such areas as theology, the natural sciences, politics, the law, art, philosophy, and literature.

Nietzsche and Zen André van der Braak, 2011-08-16
In *Nietzsche and Zen: Self-Overcoming Without a Self*, André van der Braak engages Nietzsche in a dialogue with four representatives of the Buddhist Zen tradition: Nagarjuna c. 150-250, Linji d. 860, Dogen 1200-1253, and Nishitani 1900-1990. In doing so, he reveals Nietzsche's thought as a philosophy of continuous self-overcoming in which even the notion of self has been overcome. Van der Braak begins by analyzing Nietzsche's relationship to Buddhism and status as a transcultural thinker, recalling research on Nietzsche and Zen to date and setting out the basic argument of the study. He continues by examining the practices of self-overcoming in Nietzsche and Zen, comparing Nietzsche's radical skepticism with that of Nagarjuna and comparing Nietzsche's approach to truth to Linji's. Nietzsche's methods of self-overcoming are compared to Dogen's zazen or sitting meditation practice and Dogen's notion of forgetting the self. These comparisons and others build van der Braak's case for a criticism of Nietzsche informed by the ideas of Zen Buddhism and a criticism of Zen Buddhism seen through the Western lens of Nietzsche, coalescing into one world philosophy. This treatment, focusing on one of the most fruitful areas of research within contemporary comparative and intercultural philosophy, will be useful to Nietzsche scholars, continental philosophers, and comparative philosophers.

What Self-Donation Is Sylvester L. Steffen, 2010-07
About *Uninformed Conscience* John F. Kavanaugh, S.J., says: "If a nation or church forms its people to accept assertions blindly without supporting evidence, it will form a community not of moral agents but of menaces. They may be sincere, but they will be sincere menaces." AMERICA, June 21-28, 2010, pg. 9. Conscience speaks to the meaning of Eucharist. If we buy in to the Eucharistic Theology of the Cosmic Christ, we must be open to the vital coinage of death. The multiplication of many from one is the miracle of divine human hypostasis, the miracle of the largesse of symbiotic life. The amplification of life speaks to the truth that less is more: that unless the seed dies, there is no flourishing and amplification of life. Individuality resources multiplicity; even as multiplicity resources individuality, spirituality is resurrection, consciousness the energy of prevision and provision that does not die but transforms and transfers into multiplicity. Resurrection is the consciousness of self-reflective vitality. About Eucharist, right as grain says it best: "It is in dying that we live; it is in giving that we receive; that we become one with Other, the personal oneness of Eucharist in the Cosmic Christ. Wisdom is Eucharistic consciousness, the intentional embrace of transformation. In mindfulness we become the good seed that greens the greater abundance of life. The greening of life from the dying seed informs the adage better to give

than receive And so must be our individual relationship with each other and nature What Self Donation Is is about living the fulfilled abundant life of informed conscience not by blind submission to cultural death as imposed by worldview blindness of staticism and centrism Faith in absolutism is blind openness to evolution is visionary Absolutism misinforms conscience and cultures premature death transformation informs and matures open life Epistle to the Ephesians Brooke Foss

Hastening Redemption Arie

Morgenstern, 2006-06-22 Accounts of the history of Zionism usually trace its origins to the late nineteenth century In this groundbreaking book Arie Morgenstern argues that its roots go back even further Morgenstern argues compellingly that the Jewish community in Israel may be traced back to a large scale wave of immigration during the first half of the nineteenth century Inspired by an expectation for the coming of the Messiah in the year 1840 thousands of Jews from throughout the Ottoman Empire North Africa and Eastern Europe relocated to Jerusalem Morgenstern describes the messianic awakening in all these lands but focuses primarily on the concept of redemption through messianic activism that prevailed among the disciples of Rabbi Elijah the Gaon of Vilna These immigrants believed that the Messiah's arrival would bring about the redemption of the Jews but also that in order for this redemption to come about they needed to prepare the way for the Messiah by fulfilling the commandment to dwell in the land of Israel Morgenstern offers a dramatic account of their relocation their efforts to renew rabbinic ordination their reestablishment of the Ashkenazi community and the building of Jerusalem He also explores the crisis of faith that followed the Messiah's failure to appear as expected and its effects on the community Drawing on a wealth of previously untapped sources Morgenstern sheds important new light on the history of messianic Judaism and on the ideological trends that preceded and eventually gave birth to modern political Zionism
