

REFLECTION PAPER-BAYANING THIRD WORLD

For us younger generations, we have been educated to respect Rizal as our national hero and some were given favorable information about him, along with the novels he composed, his accomplishments, and also how he died as a hero. His flaws did not weaken his bravery, however, I still honor, respect, and look up to Rizal despite the fact that he is not as "perfect" as such a national hero is supposed to be according to society. Because of his enormous achievements and tremendous legacy that are still relevant today, we are able to learn and take those learnings. About his life, work, and writings, we each have our own impressions, thoughts, and interpretations. Throughout anything, his controversy-filled life made it more interesting, and it only increased his popularity, not just in his own lifetime, but also in the present and in centuries to come. We had never raised any concerns about the bad things he had done in his life, and that's what this film is attempting to show to us viewers.

The film looked into Rizal's impact on contemporary Philippine history, while also trying to resolve concerns regarding his life which aren't frequently covered within Philippine history textbooks. The intention of the film was to show Rizal as a person, not as a symbol or a hero, as the film focused on those speculations that they wanted to unveil. Rizal undoubtedly left me questioning after watching the movie. Those particularly focused on myths, legends, and

speculations. "Bayaning Third World" challenges the common perception with the goal to understand the complex nature of Rizal's life and the role of the hero in Philippine history. Through the film, we can see Rizal as a person, not just as a symbol or a hero. The film also shows the struggles of the Third World and the role of the hero in Philippine history. The film is a reflection of the Third World and the role of the hero in Philippine history. The film is a reflection of the Third World and the role of the hero in Philippine history. The film is a reflection of the Third World and the role of the hero in Philippine history.

Entering Night Country Stephanie Brody, 2015-12-14 None of us will escape the experience of personal loss illness aging or mortality Yet psychoanalysis seems to shy away from a discussion of these core human experiences Existential vulnerability is painful and we all avoid this awareness in different ways However when analysts fail to explore the topic of mortality their own and their patients they may foreclose an important exploration and short change patient and therapist *Entering Night Country* focuses on the existential condition and explores how it penetrates professional lives analytic work and theoretical formulations Each chapter explores this topic shifting the lens from analytic process to include theoretical assumptions and professional communities Stephanie Brody shows how the analytic process is a journey no less profound than the epic journeys depicted in the classic literature of Homer and repeated in the patient's own heroic and painful stories Weaving literary references into the clinical experience of psychoanalysis Brody reveals the transformative power of the analytic process for the patient and for the analyst By relating the ancient past to our current struggles psychoanalyst and patient together are guided to a destination a life of meaning in the universe of possibilities Clinical vignettes and personal reflections intersect with motifs from the epic poems and fantasy fiction where the despair of loss and trauma do not extinguish the wish for change and the search for intimacy *Entering Night Country* highlights the common themes that arise for patient and analyst as any person entering an unknown territory It is intended for psychoanalysts psychoanalytically oriented psychotherapists and mental health clinicians It will also be accessible to those outside the clinical profession even to individuals who have little understanding of psychoanalysis

Managers Not MBAs Henry Mintzberg, 2005-06-02 In this sweeping critique of how managers are educated and how as a consequence management is practiced Henry Mintzberg offers thoughtful and controversial ideas for reforming both The MBA trains the wrong people in the wrong ways with the wrong consequences Mintzberg writes Using the classroom to help develop people already practicing management is a fine idea but pretending to

create managers out of people who have never managed is a sham Leaders cannot be created in a classroom They arise in context But people who already practice management can significantly improve their effectiveness given the opportunity to learn thoughtfully from their own experience Mintzberg calls for a more engaging approach to managing and a more reflective approach to management education He also outlines how business schools can become true schools of management
