An Anthropological Guide to the Art and Philosophy of Mirror Gazing Maria Danae Koukouti, Lambros Malafouris, 2020-09-03 Looking at one's face in the mirror and finding one's self in the mirror are not the same. The former capacity is something we share with other animals; the latter is a skill something we have to learn. What does it mean and what does it take to find oneself the mirror? This book provides a comparative anthropological enquiry into the unity and diversity of mirror gazing. The reader is encouraged to reflect upon and experiment with different mirror gazes through a range of case studies. Koukouti and Malafouris weave together anthropology with philosophy and draw on examples from literature and experiments from psychopathology in a way that has never been attempted before. The master metaphor is that of the mirror as trap. Mirror gazing is viewed on a par with hunting. Mirroring signifies the hunt for self knowledge. In a time obsessed with the digital self image Koukouti and Malafouris reflect on the structures of consciousness that underpin the different ways of looking at and through the mirror. Combining metaphor, comparison and estrangement they gesture towards a therapeutic alliance between body and mirroring. This allows us to look in the mirror and think of our shared humanity differently.

Cultural and Theological Reflections on the Japanese Quest for Divinity John J. Keane, 2016-11-07 In *Cultural and Theological Reflections on the Japanese Quest for Divinity* John J. Keane offers an explanation of Japanese divinity kami using sociology, anthropology, linguistics, literature and history. He presents an overview of how the Japanese have sought to love and serve their kami, a quest that rivals the interest that the West gives to God. The principles of interreligious dialogue are applied to the meaning of kami and a plea is made for a dialogue that respectfully accepts differences between the cultures and the theologies of Eastern and Western thought. Important cultural themes are discussed as a part of this quest, such as the emperors of Japan and the Japanese Tea Ceremony. The work also challenges the understanding of kami as highlighted by Akutagawa Ryunosuke and Endo Shusaku.

Shamanism Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations. This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day. In nearly 200 detailed readable entries leading ethnographers, psychologists, archaeologists, historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices. What is it like to be a shaman? Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates. They detail the costumes, music, rituals, artifacts and drugs that shamans use to achieve altered states of consciousness, communicate with spirits, travel in the spirit world and retrieve souls. Unlike most Western books on shamanism which focus narrowly on the

individual's experience of healing and trance Shamanism also examines the function of shamanism in society from social, political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia
