Reframing Rembrandt Je:

Reframing Rembrandt Michael Zell, 2002-03-04 This book embeds Rembrandt's art in the pluralistic religious context of seventeenth century Amsterdam arguing for the restoration of this historical dimension to contemporary discussions of the artists By incorporating this perspective Zell confirms and revises one of the most forceful myths attached to Rembrandt's art and life his presumed attraction and sensitivity to the Jews of early modern Amsterdam BOOK JACKET *The Rise of the Cult of Rembrandt* Alison McQueen, 2003 Rembrandt's life and art had an almost mythic resonance in nineteenth century France with artists critics and collectors alike using his artistic persona both as a benchmark and as justification for their own goals This first in depth study of the traditional critical reception of Rembrandt reveals the preoccupation with his perceived authenticity naturalism and naiveté demonstrating how the artist became an ancestral figure a talisman with whom others aligned themselves to increase the value of their own work And in a concluding chapter the author looks at the play Rembrandt staged in Paris in 1898 whose production and advertising are a testament to the enduring power of the artist's myth Myth in History, History in Myth Society for Netherlandic History (U.S.). International Conference, 2009 In 1975 a group of Dutch and British scholars published a conference volume of collected essays entitled Some Political Mythologies That conference sought to examine the political myth as an object of historical study particularly in the context of the tumultuous and exceptional history of the Low Countries Thirty years later a more diverse group of scholars gathered to re-examine the history of Dutch myth making in light of developments in theoretical and methodological approaches to understanding the role of myths in national identity moral geography and community formation The results of their efforts appear in this volume Myth in History History in Myth The essays cover developments in history anthropology cartography philosophy art history and literature as they pertain to how the Dutch historically perceived these myths and how the myths have been treated by previous generations of historians **Bibliographic Index**, 2002 **Art Index Retrospective**, 2006

organisations including heritage sites libraries and temporary exhibitions the book argues that the production and consumption of printed media within the context of collecting institutions occupies a unique and privileged role in the creation and communication of knowledge Acknowledging that books offer functions beyond communication Hughes argues that this places books published by museums in a unique relationship to institutions with staff acting as producers and visitors as consumers The logistical and ethical dimensions of museum and gallery publishing are also examined in depth including consideration of issues such as production the impact of digital technologies funding and sponsorship marketing co publishing rights and curators and artists agency Focusing on an important but hitherto neglected topic Museum and Gallery Publishing is key reading for researchers in the fields of museum heritage art and publishing studies It will also be of interest to curators and other practitioners working in museums heritage and science centres and art galleries

The Moving Statues of Seventeenth-Century Amsterdam Angela Vanhaelen, 2022-08-05 This book opens a window onto a fascinating and understudied aspect of the visual material intellectual and cultural history of seventeenth century Amsterdam the role played by its inns and taverns specifically the doolhoven Doolhoven were a type of labyrinth unique to early modern Amsterdam Offering guest lodgings these licensed public houses also housed remarkable displays of artwork in their gardens and galleries The main attractions were inventive displays of moving mechanical figures automata and a famed set of waxwork portraits of the rulers of Protestant Europe Publicized as the most innovative artworks on display in Amsterdam the doolhoven exhibits presented the mercantile city as a global center of artistic and technological advancement This evocative tour through the doolhoven pub gardens where drinking entertainment and the acquisition of knowledge mingled in encounters with lively displays of animated artifacts shows that the exhibits had a forceful and transformative impact on visitors one that moved them toward Protestant reform Deeply researched and decidedly original **The Moving Statues of Seventeenth Century Amsterdam** uncovers a wealth of information about these nearly forgotten public pleasure parks situating them within popular culture religious controversies global trade relations and intellectual debates of the seventeenth century It will appeal in particular to scholars in art history and early modern studies

The Inordinate Eye Lois Parkinson Zamora, 2006 The *Inordinate Eye* traces the relations of Latin American painting sculpture architecture and literature the stories they tell each other and the ways in which their creators saw the world and their place in it Moving from pre Columbian codices and sculpture through New World Baroque art and architecture to Neobaroque theory and contemporary Latin American fiction Lois Parkinson Zamora argues for an integrated understanding of visual and verbal forms The New World Baroque combines indigenous African and European forms of expression and in the early decades of the twentieth century Latin American writers began to recuperate its visual structures to construct an alternative account of modernity using its hybrid forms for the purpose of creating a discourse of counterconquest a postcolonial self definition
