WHAT IS ADDICTION?

THE STIGMA OF ADDICTION

Stigma is another reason why the use of substances and problems may be higher than others. Stigma means someone has problems or 'different' and makes people want to hide their addiction.

Stigma also affects the families of people with addiction. It makes them feel the problem is personal and not theirs or a time when families need support.

What can we do about stigma? One single way we can help is to choose to talk about 'people with addiction' not 'problem' rather than about 'alcohol', 'drugs', 'cancer' or 'HIV'. Try this approach: whether you are talking about another person or about yourself, allow you to do this you put the person ahead of the problem. This helps to show that you know there is more to a person than a problem, you are also giving the person with an addiction the respect and understanding it takes to recover.
