norden.org/temanord2022/511 Nordic countries are viewed as having low levels of corruption. However, Nordic businesses can be exploited in corruption or money laundering schemes. The KORPEN project, 'Korruption i samband med n ringsverksamhet i Norden', was funded by the Nordic Council of Ministers, coordinated by the Ministry of Justice, Finland, and implemented by the Police University College. The project concludes that anti-corruption and anti-money laundering (AML) efforts share the same features and actors but are still rather separated. Some shared methods could be utilised in combatting both crimes. In general, the AML frameworks are more structured, whereas corruption and bribery are not viewed as such a serious issue in the Nordic countries. There are incidents in the Nordic region of interconnected corruption and money laundering. New risk assessment approaches and technology solutions could be of help.
