*America, the Owner's Manual* Bob Graham, Chris Hand, 2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who

pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around

This book provides a socio legal examination of the media's influence on the development and implementation of criminal justice policy. This impact is often assumed. And especially in the wake of high profile crimes the press is routinely observed calling for sentences to be harsher and for governments to be tougher on crime. But how do we know that there is a connection? To answer this question the book draws on a case study of the media reporting of the rape and murder of Jill Meagher in Melbourne Australia as well as other well known cases including those of James Bulger, Sarah Payne, Stephen Lawrence and Michael Brown among others. Deploying a socio legal framework to examine how the media's often powerful and emotive narratives play a crucial role in the development and implementation of law the book provides a deep and critical reflection on its influence. The book concludes with a number of suggestions for media reform both to moderate the media's influence and to incorporate a broader range of viewpoints. This multi disciplinary book will appeal to scholars and students in sociolegal studies, criminology and criminal law as well as those working in relevant areas in sociology and media studies.
