My last responsibility at Dell Malaysia was Strategy lead for APJ. Then one day I stumbled upon a clip about Steve Jobs. The clip was six months before his demise when he learned the news of his pancreatic cancer. Steve reflected the fear of failure or the happiness that came from his successes evaded him. The only thought that persisted was How will that work help humanity. From that day I decided to postpone renting my time. Instead, I invested several hours creating a non-fictional Case study on An approach to Lean Organization Transformation. I believe what you are holding in your hand, I believe is a masterpiece. The concepts apply to both the Top and Middle level Management tasked in making organizational changes which usually starts with making

weekly Business case presentations to their leaders on how they can impact the change but struggle beyond a point devoid of a Bulletproof Tested approach I scrapped all the technicalities so that ANYONE could easily understand them Happy reading Love respect Vivek Kumar Sharma
