Department of Justice,2014-07-24 This Research Report is part of the National Institute of Justice s NIJ s Reducing Gun Violence publication series Each report in the series describes the implementation and effects of an individual NIJ funded local level program designed to reduce firearm related violence in a particular U S city Some studies received cofunding from the U S Department of Justice s Office of Community Oriented Policing Services one also received funding from the Centers for Disease Control and Prevention and the Justice Department s Office of Juvenile Justice and Delinquency Prevention *Reducing Gun Violence: Community Problem Solving in Atlanta* ,2006 *National Institute of Justice Journal* ,2006

Missing Persons and Unidentified Remains ,2007 *Crime Prevention* Steven P. Lab,2023-02-28 Crime Prevention Approaches Practices and Evaluations Eleventh Edition meets the needs of students and instructors for engaging evidence based impartial coverage of interventions that can reduce or prevent deviance This edition examines the entire gamut of prevention from physical design to developmental prevention to identifying high risk individuals to situational initiatives to partnerships and beyond Strategies include primary prevention measures designed to prevent conditions that foster deviance secondary prevention measures directed toward persons or conditions with a high potential for deviance and tertiary prevention measures to deal with persons who have already committed crimes In this book Lab offers a thorough and well rounded discussion of the many sides of the crime prevention debate in clear and accessible language including the latest research concerning space syntax physical environment and crime neighborhood crime prevention programs community policing crime in schools and electronic monitoring and home confinement This book is essential for undergraduates studying criminal justice criminology and sociology in the U S and globally Online resources include an instructor s manual test bank and lecture slides for faculty and a wide array of resources for students **Armed and Considered Dangerous** James D. Wright,2017-07-12 Armed and Considered Dangerous is a book about bad guys and their guns But Wright and Rossi contend that for every suspected criminal who owns and abuses a firearm a hundred or more average citizens own guns for sport for recreation for self protection and for other reasons generally regarded as appropriate or legitimate Armed and Considered Dangerous is the most ambitious survey ever undertaken of criminal acquisition possession and use of guns There are vast differences between the average gun owner and the average gun abusing felon but the analyses reported here do not suggest any obvious way to translate these differences into gun control policies Most policy implications drawn from the book are negative in character this will not work for this reason that will not work for that

reason and so on When experts are asked Okay then what will work they usually fall back on the old warhorses of poverty the drug problem or the inadequate resources of the criminal justice system and otherwise have little to say This is not a failure of social science It simply asks more of the data than the data were ever intended to provide Several of Wright and Rossi's findings have become coin of the realm in the gun control debate cited frequently by persons who have long since forgotten where the data came from or what their limitations are Several other findings including many that are important have been largely ignored Still other findings have been superseded by better and more recent data or rendered anachronistic by intervening events With the inclusion of a new introduction detailing recent statistics and updated information this new edition of *Armed and Considered Dangerous* is a rich source of information for all interested in learning about weapon behavior and ownership in America

Guns in American Society Gregg Lee Carter, 2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of *Guns in American Society* An Encyclopedia of History Politics Culture and the Law was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of *Guns in American Society* is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters

Policing: Toward an Unknown Future John Crank, Colleen Kadleck, 2013-12-16 The enclosed papers are the culmination of a project Dr John Crank and Dr Colleen Kadleck carried out assessing issues facing the police into the early 21st century The papers are future oriented in the sense that they anticipate trends visible today Everywhere the contributing scholars found that the organizational concept practice and function of the police were undergoing transition Yet the seeming state level hardening of the police function was ubiquitous Two themes were noteworthy On the one hand in developing or second world countries police face endemic problems of corruption organized crime and drugs Police in response are undergoing centralization and intensification of law enforcement activities In countries with first world economies Canada the United States and Australia contributors discovered trends toward expansion of the police function a trend described by Brodeur as toward high policing It reflects the growing reliance on surveillance for crime control and for the tracking of minority indigenous and immigrant populations in crime prevention efforts The results suggest that governments sometimes encouraged by their citizenry seem

increasingly to rely on the police to deal with a broad array of social as well as criminal problems This book was originally published as a special issue of Police Practice and Research **Shooting to Kill?** Peter Squires, Peter Kennison, 2010-08-24 Shooting to Kill Policing Firearms and Armed Response explores the dilemma of armed response policing in the UK and policing in a gun culture Offers the first critical exploration of the ACPO code of guidance on Police Use of Firearms and other tactical manuals Includes interviews with senior police firearms managers and critical case studies of police firearms incidents Features the first in depth academic analysis of the Stockwell shooting incident and the Kratos policy Provides a review of key developments in armed response policing around the world Describes the crucial phases in armed response policy development in Britain and explores the consequences of arming the police Culture and Civilization Irving Horowitz, 2018-02-06 Intellectual activity in the twentieth century took place largely under the banner of science and society As the new millennium develops it is becoming evident that science and society are not words that represent an unmitigated good nor for that matter do they exhaust what is new in the human condition Past writing on the theme of culture has emphasized the growth and expansion of human capabilities Recent use of the term civilization has placed great emphasis on the fall from grace of human beings The use of both terms is rapidly changing Culture and Civilization develops critical ideas intended to produce a positive intellectual climate one that is prepared to confront threats and alert us to the opportunities of the twenty first century It recognizes that the twenty first century presents people in all fields and of all faiths with shared challenges Culture and Civilization embraces the work of novelists journalists cultural figures technologists physical sciences historians and policy personnel who range beyond social science areas What they have in common is a view that civilization is under assault and that it represents a cause worth advancing and defending This publication does not embrace idiosyncratic visions of the clash of world civilizations or the end of Western civilization It does attempt to bring together immediate issues of the century that are substantially new and challenging We see that the essential polarity between democracy and autocracy has now taken on larger deeper dimensions in a different political economic and ecological terrain the central issue of our day is now civilization versus barbarism The character of democratic culture is central to the global equation and the systemic challenge This publication is a sober response to such a challenge Reducing Youth Gun Violence , 1996 **Guns in American Society** Jaclyn Schildkraut, Gregg Lee Carter, 2022-12-01 The revised third edition of the landmark Guns in American Society provides an authoritative and objective survey of the history and current state of all gun related issues and areas of debate in the United States Guns in American Society An Encyclopedia of History Politics Culture and the Law is a comprehensive and evenhanded three volume reference resource for understanding all of the political legal and cultural factors that have swirled around gun rights and gun control in America past and present The encyclopedia draws on a vast array of research in criminology history law medicine politics and social science It covers all aspects of the issue gun violence including mass shootings in schools and other public spaces gun control arguments and

organizations gun rights arguments and organizations the firearms industry firearms regulation legislation and court decisions gun subcultures for example hunters and collectors leading opinion shapers on both sides of the gun debate technological innovations in firearm manufacturing various types of firearms from handguns to assault weapons and evolving public attitudes toward guns Many of these entries place the topics in both historical and cross cultural perspective **NIJ Research Portfolio** ,1998 *NIJ Awards in Fiscal Year ...* ,1992 *National Institute of Justice, Research in Brief, NIJ Awards in Fiscal Year 1997, June 1997* ,1998 *Research in Brief* ,1997 *Promising Strategies to Reduce Gun Violence* David I. Sheppard,1999
