Refugees And The Myth Of Human Rights:

Refugees and the Myth of Human Rights Dr Emma Larking, 2014-12-28 Most Western liberal democracies are parties to the United Nations Refugees Convention and all are committed to the recognition of basic human rights but they also spend billions fortifying their borders detaining unauthorised immigrants and policing migration Meanwhile public debate over the West's obligations to unauthorised immigrants is passionate vitriolic and divisive *Refugees and the Myth of Human Rights* combines philosophical historical and legal analysis to clarify the key concepts at stake in the debate and to demonstrate the threat posed by contemporary border regimes to rights protection and the rule of law within liberal democracies Using the political philosophy of John Locke and Immanuel Kant the book highlights the tension in liberalism between partiality towards one's compatriots and the universalism of human rights and brings this tension to life through an examination of Hannah Arendt's account of the rise and decline of the modern nation state It provides a novel reading of Arendt's critique of human rights and her concept of the right to have rights The book argues that the right to have rights must be secured globally in limited form but that recognition of its significance should spur expansive changes to border policy within and between liberal states

The Rights of Refugees under International Law James C. Hathaway, 2005-09-15 This book presents the first comprehensive analysis of the human rights of refugees as set by the UN Refugee Convention In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens questions are now being raised about whether refugees should be allowed to enjoy freedom of movement to work to access public welfare programs or to be reunited with family members Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules and whether there is a duty to admit refugees at all Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law and applies his analysis to the world's most difficult protection challenges This is a critical resource for advocates judges and policymakers It will also be a pioneering scholarly work for graduate students of international and human rights law

The EU-Turkey Statement on Refugees Hülya Kaya, 2020-06-26 This thought provoking book critically analyses how the implementation of the EU Turkey Statement on Refugees affects the rights of refugees and asylum seekers Bringing together an in depth examination of both EU and Turkish law and fieldwork data within a theoretical human rights framework Hülya Kaya discusses the operational realities and failures of the agreement between Turkey and the EU from a socio legal perspective

Refugees and the Myth of Human Rights Dr Emma Larking, 2014-12-28 Most Western liberal democracies are parties to the United Nations Refugees Convention and all are committed to the recognition of basic human rights but they also spend billions fortifying their borders detaining unauthorised immigrants and policing migration Meanwhile public debate over the West's obligations to unauthorised immigrants is passionate vitriolic and divisive *Refugees*

and the Myth of Human Rights combines philosophical historical and legal analysis to clarify the key concepts at stake in the debate and to demonstrate the threat posed by contemporary border regimes to rights protection and the rule of law within liberal democracies *Contemporary Issues in Refugee Law* Satvinder Singh Juss, Colin Harvey, 2013-01-01 Refugee law is going through momentous times as dictatorships tumble revolutions simmer and the Arab Awakening gives way to the spread of terror from Syria to the Sahel in Africa This compilation of topical chapters by some of the leading scholars in the field covers major themes of rights security the UNHCR international humanitarianism and state interests and sets out to map new contours The concerns over our security are replacing humanitarian concerns over the plight of others Securitization exclusion and the internal relocation of genuine refugees are now the favoured policies Yet while central idioms of protection persecution and non refoulement have changed there are also new demands on refugee law The contributors to this book ask whether there are new spheres of protection emerging for which refugee law must find a clear space such as the protection of child refugees trafficked persons gender related asylum and conscientious objectors to military service This timely and valuable book shows that in these uncertain times refugee law still has an exciting and challenging future ahead

Contemporary Issues in Refugee Law will appeal to academics researchers students and practitioners **Environmental Protection and Human Rights** Donald K. Anton, Dinah L. Shelton, 2011-04-11 With unique scholarly analysis and practical discussion this book provides a comprehensive introduction to the relationship between environmental protection and human rights being formalized into law in many legal systems This book instructs on environmental techniques and procedures that assist in the protection of human rights The text provides cogent guidance on a growing international jurisprudence on the promotion and protection of human rights in relation to the environment that has been developed by international and regional human rights bodies and tribunals It explores a rich body of case law that continues to develop within states on the environmental dimension of the rights to life to health and to public participation and access to information Five compelling contemporary case studies are included that implicate human rights and the environment ranging from large dam projects to the creation of a new human right to a clean environment *Refugee Solutions in the Age of Global Crisis* David K.

Androff, 2022 *Refugee Solutions in the Age of Global Crisis* tackles the world's three main policies for addressing refugee crises voluntary repatriation local integration and third country resettlement These policies were set up by the UN in the aftermath of World War II and they have not been updated since In fact they have been slowly breaking down Using detailed contemporary case studies this book analyzes these policies from a social work perspective with special attention to human rights integration and sustainable development *Museums, the Media and Refugees* Katherine Goodnow, Jack Lohman, Philip Marfleet, 2008-03-01 Across countries and time asylum seekers and refugees have been represented in a variety of ways In some representations they appear negatively as dangers threatening to overrun a country or a region with floods of incompatible strangers In others the same people are portrayed positively with compassion and pictured as

desperately in need of assistance How these competing perceptions are received has significant consequences for determining public policy human rights international agreements and the realization of cultural diversity and so it is imperative to understand how these images are perpetuated To this end this volume reflects on museum practice and the contexts stories and images of asylum seekers and refugees prevalent in our mass media Based on case studies from Australia New Zealand and the United Kingdom the overall findings are illustrative of narratives and images common to museums and the media throughout the world They aim to challenge political rhetoric and populist media imagery and consider what forms of dissent are likely to be sustained and what narratives ultimately break through and can lead to empathy and positive political change

International Human Rights Cher Weixia Chen,Alison Dundes

Renteln,2022-08-11 This book provides an interdisciplinary overview of international human rights issues offering truly international coverage including the Global South Considering the philosophical foundations of human rights Chen and Renteln explore the interpretive difficulties associated with identifying what constitute human rights abuses and evaluate various perspectives on human rights This book goes on to analyze institutions that strive to promote and enforce human rights standards including the United Nations system regional human rights bodies and domestic courts It also discusses a wide variety of substantive human rights including genocide torture capital punishment and other cruel and unusual punishments In particular the book offers an accessible introduction to key understudied topics within human rights such as socioeconomic rights cultural rights and environmental rights It also focuses on the rights of marginalized groups including children s rights rights of persons with disabilities women s rights labor rights indigenous rights and LGBTQ rights making this an engaging and invaluable resource for the contemporary student

Climate Change, Migration and Human Rights Dimitra Manou,Andrew Baldwin,Dug Cubie,Anja Mihr,Teresa Thorp,2017-05-12 Climate Change already having serious impacts on the lives of millions of people across the world These impacts are not only ecological but also social economic and legal Among the most significant of such impacts is climate change induced migration The implications of this on human rights raise pressing questions which require serious scholarly reflection Drawing together experts in this field Climate Change Migration and Human Rights offers a fresh perspective on human rights law and policy issues in the climate change regime by examining the interrelationships between various aspects of human rights climate change and migration Three key themes are explored understanding the concepts of human dignity human rights and human security the theoretical nexus between human rights climate change and migration or displacement and the practical implications and challenges for lawyers and policy makers of protecting human dignity in the face of climate change and displacement The book also includes a series of case studies from Alaska Bangladesh Kenya and the Pacific islands which aim to improve our understanding of the theoretical and practical implications of climate change for human rights and migration This book will be of great interest to scholars of environmental law and policy human rights law climate change and migration and refugee

studies Political Refugees Armin Danesh, Alison Assiter, 2022-03-14 Many books about refugees focus on their trauma loss and victimhood Refugees are often regarded as problems for governments and social services in the countries where they seek asylum This unique book presents a very different view Coupling existential themes with politics and psychology Political Refugees tells the story of a number of Iranian political refugees through case studies and through Armin Danesh's own life story Danesh has more than three decades of experience of working with refugees who have survived trauma and who continue to work for the causes close to their hearts All the refugees presented here were politically engaged and suffered as a consequence In their new home country however they not only survived but were reborn and forged new opportunities The book demonstrates people's capacity to transform themselves through crisis The stories told will be invaluable for organizations or individuals who study or work with refugees or anyone who has suffered extreme adversity

Global Changes in Asylum Regimes D. Joly, 2002-11-22 This book examines convergent trends in asylum regimes around the world It covers the main regions of the world where asylum is a critical problem Europe Africa and Central America It also looks at the major issues human rights non governmental organisation involvement gender return comprehensive policy European Union harmonisation international intervention and temporary protection **The International Legal Status and Protection of Environmentally-Displaced Persons: A European Perspective** Hélène Ragheboom, 2017-07-03 In The International Legal Status and Protection of Environmentally Displaced Persons A European Perspective Hélène Ragheboom addresses the topical issue of displacement caused by environmental factors and analyses in particular whether affected persons who are unable or unwilling to return to their country of origin due to the severe degradation of their living environment could or in the negative should receive some form of international protection within the European Union The author provides a detailed analysis of relevant instruments of refugee law and international human rights law and explores possible future approaches to addressing the phenomenon of environmental displacement ranging from constructive interpretations of existing norms to the allegedly preferable creation of a multidisciplinary sui generis framework *Myths and Sanctioned Ignorance in British Immigration Discourse* Samuel Bennett, 2025-01-07 In this book Samuel Bennett looks at the British national myths regarding the UK's relationship with other countries and its former colonies He argues that the construction of these myths to legitimise Britain's self image has racialized silenced and erased the migrant Other and by extension British ethnic minorities Drawing upon critical discourse studies and integrating decolonial and postcolonial theories Bennett offers an in depth methodologically rigorous analysis of five central myths of UK immigration discourse Further he shows how the myths the UK tells itself are at once stable deployed in different contexts and historically rooted Human Rights Michael Goodhart, 2013 Human Rights Politics and Practice is an introduction to human rights that goes beyond a purely legal perspective to look at theoretical issues and practical approaches Bringing together leading experts it is up to date with cutting edge research in a constantly evolving field

Refugees and Forced Migrants in Africa and the EU Elisabeth Wacker, Ulrich Becker, Katharina Crepaz, 2018-12-28 The so called refugee crisis represents one of the biggest contemporary political and social challenges Although many African countries have been dealing with forced migratory and refugee movements for decades their experiences have so far largely been neglected in the predominantly Eurocentric public debate The present volume aims to bridge this gap by providing comparative African and European perspectives from different disciplines highlighting the challenges but also potential mutual benefits of social diversification and offering an insight into possible solution strategies

Refugees and Rights Mary Crock, 2017-05-15 Forced migration is both as ancient as human life on earth and a relatively new subject of interest for human rights scholars This volume continues the discussion from Migrants and Rights to focus attention on refugees victims of trafficking and others who cross borders seeking protection from anthropogenic or natural disasters The opening essays provide historical and conceptual overviews of rights to freedom of movement and asylum and links between human rights and refugee law Articles on the principle of non refoulement in international law explore the occasional disjuncture between the individual s right to protection and the State s rights to protect its national interests The refugee s rights to due process and the substance of entitlements at law are explored in essays that range across administrative processes social and cultural rights including family reunion detention and the right of return There follow four essays that address sexual orientation and refugee rights refugees and disability rights human rights and persons displaced by climate change disasters and the rights of victims of human trafficking The volume concludes with work reflecting on the rights discourse outside of traditional Western theatres These cover Africa Kenya India South America Brazil and the Asia Pacific Indonesia and Papua New Guinea

The Search for Environmental Justice Paul Martin, Sadeq Z. Bigdeli, Trevor Daya-Winterbottom, Willemien du Plessis, Amanda Kennedy, 2015-07-31 This thoughtful book provides an overview of the major developments in the theory and practice of environmental justice It illustrates the direction of the evolution of rights of nature and exposes the diverse meanings and practical uses of the conc

Refugees Jane McAdam, 2014-09-01 If you listen to some politicians and voices in the media you might well believe that asylum seekers are illegal You might think that they should wait their turn in the so called queue You might think that they pose a potential threat to our national security and that the government is right to keep them from our shores Or you might take a humanitarian stance believing that drastic border protection policies though harsh in effect are necessary to deter asylum seekers from endangering their lives on risky boat journeys to Australia However logical these conclusions might seem the problem is that they are based on widespread misunderstandings about why and how people seek asylum and what Australia s international legal obligations are This book rejects spin and panic to provide a straightforward and balanced account of Australia s asylum policies in light of international law Written for a general audience it explains who asylum seekers and refugees are what the law is and what policies like offshore processing mandatory detention and turning back boats mean in practice Using real life examples this book reminds us of the human

impact of Australia's policies
