Regional Dynamics In A Decentralized Indonesia:

Regional Dynamics in a Decentralized Indonesia Hal Hill, 2014-05-20 Indonesia is the world's largest archipelagic state. In 2001 it embarked on a big bang decentralization involving a major transfer of administrative, political and financial authority to its districts, now numbering more than 500. Together with the rapid transition from authoritarian to democratic rule in the late 1990s, this initiative has transformed the country's political, social and business life. While national government is the major area of contestation, power has shifted irreversibly away from the centre. How this significantly increased regional autonomy works will have a crucial bearing on the future of the Indonesian nation-state. This volume features contributions by over 40 writers with deep expertise on Indonesia. The book provides a timely, comprehensive and analytical assessment of the country's regional development dynamics in the post-decentralization environment. It explores historical, political and development patterns at the regional level, the relationship between decentralization and governance, local level perspectives, migration, cities and connectivity, and the challenges confronting the peripheral regions of Aceh and Papua.

Decentralization of government and forestry in Indonesia Thung, P.H., 2019-06-03 The decentralization program that Indonesia embarked on in 1998 continues to unfold through manifold, sometimes contradictory processes. This working paper presents a concise and up-to-date overview of the aims, dimensions and dynamics of decentralization. **The Divergent**

Nation of Indonesia Stefani Nugroho, 2020-07-28 This book explores how Indonesia is imagined differently by young people in the three cities of Jakarta, Kupang and Banda Aceh. Throughout the course of Indonesia's colonial and postcolonial history, Jakarta, the capital, has always occupied a central position, while Kupang in East Nusa Tenggara and Banda Aceh in Nanggroe Aceh Darussalam are located at the peripheries. The book analyses the convergences and divergences in how the country is perceived from these different vantage points and the implications for Indonesia, also providing a new perspective to the classic and contemporary theories of the nation. By examining the heterogeneity of the imaginings of the nation from below, it moves away from the tendency to focus on the homogeneity of the nation found in the classic theories such as Anderson's and Gellner's, as well as in more recent theories on everyday and banal nationalism. Using the tenets of standpoint theory and Laclau and Mouffe's theory of hegemony, the nation is acknowledged as an empty signifier that means different things depending on the positionality of the perceiving subject. The work appeals to scholars of nation studies and Asian and Indonesian studies, as well as those interested in the empirical grounding of poststructuralist theories. **Decentralized**

Governance and Accountability Jonathan A. Rodden, Erik Wibbels, 2019-02-28 At the end of the twentieth century, academics and policymakers welcomed a trend toward fiscal and political decentralization as part of a potential solution for slow economic growth and poor performance by insulated, unaccountable governments. For the last two decades, researchers have been trying to answer a series of vexing questions about the political economy of multi-layered governance. Much of the best recent research on decentralization has come from close collaborations between university researchers and

international aid institutions As the volume and quality of this collaborative research have increased in recent decades the time has come to review the lessons from this literature and apply them to debates about future programming In this volume the contributors place this research in the broader history of engagement between aid institutions and academics particularly in the area of decentralized governance and outline the challenges and opportunities to link evidence and policy action

Rethinking Power Relations in Indonesia Michaela Haug, Martin Rössler, Anna-Teresa Grumblied, 2016-07-15 Since colonial rule the island of Java served as Indonesia's imagined centre and prime example of development while the Outer Islands were constructed as the state's marginalised periphery Recent processes of democratisation and regional autonomy however have significantly changed the power relations that once produced the marginality of the Outer Islands This book explores processes of political economic and cultural transformations in Indonesia emphasizing their implications for centre periphery relations from the perspective of the archipelago's margins Structured along three central themes the book first provides theoretical contributions to the understanding of marginality in Indonesia The second part focuses on political transformation processes and their implications for the Outer Islands The third section investigates the dynamics caused by economic changes on Indonesia's periphery Chapters written by experts in the field offer examples from various regions which demonstrate how power relations between centre and periphery are getting challenged contested and reshaped The book fills a gap in the literature by analysing the implications of the recent transformation processes for the construction of marginality on Indonesia's Outer Islands

The Political Economy of Redistribution in Indonesia Gerrit J. Gonschorek, 2023-12-13 This book analyses how different institutional intergovernmental transfer designs influence patronage and favoritism in public fund allocations in Indonesia Presenting original research and investigating existing theories on the determinants of public fund allocations the book uses Indonesia as a case study Indonesia often claimed to be characterized by money politics provides an ideal setting for this analysis The country's decentralized fiscal system consists of various institutional intergovernmental transfer designs allocating public funds to a large variety of districts to finance public service provision The author exploits those distinctive differences between various institutional intergovernmental transfer designs and investigates their influence on the prevalence of favoritism and patronage in public funds allocations while holding the political system the observation period and the government officials involved constant A valuable contribution to the literature on the political economy of redistribution this book will be of interest to academics working on economics and political science particularly in public finance and development economics but also in development studies or Southeast Asian studies

Managing Globalization in the Asian Century Hal Hill, 2016-11-17 The global centre of gravity continues to shift to the Asia Pacific the most dynamic region in the world These economies have generally grown faster for longer periods of time than any other major region in world history Their embrace of globalization has been a central feature and driver of their dynamism The management of Asia Pacific economic integration and globalization is crucial not only for

the countries themselves but also for the state of the global economy including importantly latecomer developing economies who look to the region for analytical and development policy lessons Twenty eight leading international authorities in the field drawn from nine countries provide a comprehensive examination of the causes consequences and challenges of globalization in a volume that celebrates the distinguished career of Professor Prema Chandra Athukorala Among the major issues examined are the region's distinctive approach to trade liberalization the effects of economic growth on poverty reduction and the labour market the special challenges of by passed regions the role of ideas in influencing policy making the modalities of connecting to global production networks and the importance of remittances in economic development Several country case studies provide in depth analyses of development processes and outcomes These include episodes in economic development the challenges faced by transition economies the macroeconomics of adjusting to slower growth and rising debt in advanced economies and the so called middle income trap phenomenon

Time to ACT Mark Roberts, Frederico Gil Sander, Sailesh Tiwari, 2019-04-20

Indonesia has urbanized rapidly since its independence in 1945 profoundly changing its economic geography and giving rise to a diverse array of urban places These places range from the bustling metropolis of Jakarta to rapidly emerging urban centers in hitherto largely rural parts of the country Although urbanization has produced considerable benefits for many Indonesians its potential has only been partially realized *Time to ACT Realizing Indonesia's Urban Potential* explores the extent to which urbanization in Indonesia has delivered in terms of prosperity inclusiveness and livability The report takes a broad view of urbanization's performance in these three key areas covering both the monetary and nonmonetary aspects of welfare It analyzes the fundamental reforms that can help the country to more fully achieve widespread and sustainable benefits and it introduces a new policy framework the ACT framework to guide policy making This framework emphasizes the three policy principles of Augment Connect and Target Augment the provision and quality of infrastructure and basic services across urban and rural locations Connect places and people to jobs and opportunities and services Target lagging areas and marginalized groups through well designed place based policies as well as thoughtful urban planning and design Using this framework the report provides policy recommendations differentiated by four types of place that differ in both their economic characteristics and the challenges that they face multidistrict metro areas single district metro areas nonmetro urban areas and nonmetro rural areas In addition to its eight chapters *Time to ACT Realizing Indonesia's Urban Potential* includes four spotlights on strengthening the disaster resilience of Indonesian cities the nexus between urbanization and human capital the invisible crisis of wastewater management and the potential for smart cities in Indonesia If Indonesia continues to urbanize in line with global historical standards more than 70 percent of its population will be living in towns and cities by the time the country celebrates the centenary of its independence in 2045 Accordingly how Indonesia manages this continued expansion of its urban population and the mounting congestion forces that expansion brings will do much to determine whether the country reaches the upper rungs of the global ladder of prosperity

inclusiveness and livability **Indonesia** Jamie S. Davidson, 2018-08-16 This Element argues that after twenty years of democratization Indonesia has performed admirably This is especially so when the country's accomplishments are placed in comparative perspective However as we analytically focus more closely to inspect Indonesia's political regime political economy and how identity based mobilizations have emerged it is clear that Indonesia still has many challenges to overcome some so pressing that they could potentially erode or reverse many of the democratic gains the country has achieved since its former authoritarian ruler Soeharto was forced to resign in 1998 **Missing links in the forest-migration nexus** Thung, P.H., Juniwati, K.S., 2018-03-16 This paper provides an overview of the current state of knowledge about migration and its relation to forests in Indonesia An evaluation of current patterns and trends of migration finds that while mobility is increasing nationally and internationally **Indonesia** Edimon Ginting, Christopher Manning, Kiyoshi Taniguchi, 2018-02-01 The book focuses on Indonesia's most pressing labor market challenges and associated policy options to achieve higher and more inclusive economic growth The challenges consist of creating jobs for and the skills in a youthful and increasingly better educated workforce and raising the productivity of less educated workers to meet the demands of the digital age The book deals with a range of interrelated topics the changing supply and demand for labor in relation to the shift of workers out of agriculture urbanization and the growth of megacities raising the quality of schooling for new jobs in the digital economy and labor market policies to improve both labor standards and productivity **Yudhoyono Presidency** Edward Aspinall, 2016-04-29 The presidency of Susilo Bambang Yudhoyono 2004-14 was a watershed in Indonesia's modern democratic history Yudhoyono was not only the first Indonesian president to be directly elected but also the first to be democratically re-elected Coming to office after years of turbulent transition he presided over a decade of remarkable political stability and steady economic growth But other aspects of his rule have been the subject of controversy While supporters view his presidency as a period of democratic consolidation and success critics view it as a decade of stagnation and missed opportunities This book is the first comprehensive attempt to evaluate both the achievements and the shortcomings of the Yudhoyono presidency With contributions from leading experts on Indonesia's politics economy and society it assesses the Yudhoyono record in fields ranging from economic development and human rights to foreign policy the environment and the security sector **Inequality and Exclusion in Southeast Asia** Lee Hwok Aun, Christopher Choong, 2021-10-11 Inequality is a defining global issue of our times Southeast Asia stands out in some ways the 2010s have seen most countries in the region reduce income gaps Nonetheless inequality levels remain high especially in the middle income to high income countries and popular disaffection and economic anxiety prevail even while official statistics may paint more buoyant scenarios The age old problem of group based exclusion in the development process manifests in new ways This book provides up to date overviews of inequality levels and trends primarily related to income but also wealth and other socio economic variables pertaining to education and health The country chapters also examine salient themes of

inequality especially structural changes and public policies to redress inequality and exclusion labour market developments population groups regional dynamics and informal economies We gain an appreciation for the unique conditions and diverse experiences of each country and draw comparative insights across the region This is an impressive collection of papers written by scholars from Southeast Asia and addressing an important set of issues which deserve serious attention from policymakers Inequality and social exclusion are problems which never seem to go away even in the high income countries and this collection will be valuable for all those seeking to understand how serious the situation is in eight Southeast Asian states The editors are to be congratulated on bringing together such a timely book Anne Booth Emeritus Professor of Economics School of Oriental and African Studies This compilation of recent research on Southeast Asian economic inequalities by Lee and Choong underscores the rapid progress being made The authors from the region underscore the global shift in research and policy attention in this century Reflecting data and methodological diversity the book variedly captures some intersectionality of inequalities beyond the old focus on interpersonal and household income distribution Jomo KS Fellow Academy of Science Malaysia In societies across the world rising inequality has become a critical issue over the past generation Besides basic issues of justice inequality between people obstructs the collective decision making needed for societies to progress This book is the most comprehensive study of inequality in Southeast Asia It stresses that each society is different but the solutions are common good data proper understanding multidimensional approaches strong institutions and popular agency Pasuk Phongpaichit Emeritus Professor Chulalongkorn University

Balancing Individualism and Collectivism Janet McIntyre-Mills, Norma Romm, Yvonne Corcoran-Nantes, 2017-10-03 This book addresses the social and environmental justice challenge to live sustainably and well It considers the consequences of our social economic and environmental policy and governance decisions for this generation and the next The book tests out ways to improve representation accountability and re generation It addresses the need to take into account the ethical implications of policy and governance decisions in the short medium and long term based on testing out the implications for self other and the environment This book recognizes the negative impact that humans have had on the Earth s ecosystem and recommends a less anthropocentric way of looking at policies and governance The chapters discuss the geologic impact that people have had on the globe both positive and negative and brings awareness to the anthropocentric interventions that have influenced life on Earth during the Holocene era Based on these observations the authors discuss original ideas and critical reviews on ways to govern those who interpret the world in terms of human values and experience and to conduct an egalitarian lifestyle These ideas address the growing rise in the size of the ecological footprints of some at the expense of the majority the growth in unsustainable food choices and of displaced people and the need for a new sense of relationship with nature and other animals among other issues The chapters included in Balancing Individualism and Collectivism Social and Environmental Justice encourage readers to challenge the sustainability agenda of the anthropocentric life Proposed solutions to these

unsustainable actions include structuralized interventions and volunteerism through encouragement and education with a focus on protecting current and future generations of life through new governmental etiquette and human cognizance
