Middle East and Central Asia Dept.,2015-10-21 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards *Regional Economic Outlook: Middle East and Central Asia* International Monetary Fund. Middle East and Central Asia Dept.,2022-10-31 In a worsening global environment economies in the Middle East and Central Asia are being buffeted by a confluence of shocks a global slowdown high and volatile food

and energy prices faster and stronger than expected tightening of financial conditions and the risk of fragmentation The region s emerging market and middle income economies EM MIs and low income countries LICs are hit hard with many facing curtailed access to market financing while oil exporting countries are being buffered by still high energy prices The adverse impact of Russia s war in Ukraine on the Caucasus and Central Asia CCA has thus far been milder than expected Still the CCA s strong ties to Russia entail substantial risks to the region s outlook The most urgent policy challenge for all countries is to tackle the cost of living crisis by restoring price stability protecting vulnerable groups through targeted support and ensuring food security Policy trade offs in EM MIs and LICs have become more pronounced than ever as they also need to preserve debt sustainability and financial stability Oil exporters have the opportunity to maximize the benefits of the oil windfall by building buffers and advancing their diversification plans CCA countries should carefully assess the magnitude and durability of the initial spillovers from the war in Ukraine and adjust their policy mix accordingly Limited policy space in many countries raises the urgency of structural reforms to bolster economic growth while transforming economies to become more resilient sustainable diversified and inclusive Regional Economic Outlook, October 2016, Middle East and Central Asia International Monetary Fund. Middle East and Central Asia Dept.,2016-10-20 This issue focuses on the ongoing adjustment to cheaper oil and subdued economic activity for oil producing countries as well as the weak and fragile recovery in the Caucasus and Central Asia region It also discusses global spillovers from China s rebalancing and the growth of fiscal deficits **Regional Economic Outlook, October 2017, Middle East and Central Asia** International Monetary Fund. Middle East and Central Asia Dept.,2017-10-27 Oil exporters in the Middle East and North Africa Afghanistan and Pakistan region MENAP are continuing to adjust to lower oil prices which have dampened growth and contributed to large fiscal and external deficits *Regional Economic Outlook, Middle East and Central Asia, October 2023* International Monetary Fund. Middle East and Central Asia Dept.,2023-10-12 Across the Middle East and Central Asia the combined effects of global headwinds domestic challenges and geopolitical risks weigh on economic momentum and the outlook is highly uncertain Growth is set to slow this year in the Middle East and North Africa region driven by lower oil production tight policy settings in emerging market and middle income economies the conflict in Sudan and other country specific factors In the Caucasus and Central Asia although migration trade and financial inflows following Russia s war in Ukraine continue to support economic activity growth is set to moderate slightly this year Looking ahead economic activity in the Middle East and North Africa region is expected to improve in 2024 and 2025 as some factors weighing on growth this year gradually dissipate including the temporary oil production cuts But growth is expected to remain subdued over the forecast horizon amid persistent structural hurdles In the Caucasus and Central Asia economic growth is projected to slow next year and over the medium term as the boost to activity from real and financial inflows from Russia gradually fades and deep seated structural challenges remain unsolved Inflation is broadly easing in line with globally declining price pressures

although country specific factors including buoyant wage growth in some Caucasus and Central Asia countries and climate related events continue to make their mark Despite some improvement since April the balance of risks to the outlook remains on the downside In this context expediting structural reforms is crucial to boost growth and strengthen resilience while tight monetary and fiscal policies remain essential in several economies to durably bring down inflation and ensure public debt sustainability *Regional Economic Outlook, October 2019, Middle East and Central Asia* International Monetary Fund.

Middle East and Central Asia Dept.,2019-11-06 Growth in the near term remains subdued for oil exporters in the Middle East North Africa Afghanistan and Pakistan MENAP region amid volatile oil prices precarious global growth elevated fiscal vulnerabilities and heightened geopolitical tensions In addition declining productivity is dampening medium term growth prospects To reduce dependence on oil prices and pave the way for more sustainable growth fiscal consolidation needs to resume underpinned by improved medium term fiscal frameworks In parallel structural reforms and further financial sector development would boost foreign direct investment FDI and domestic private investment and foster diversification thus contributing to improved productivity and potential growth *Regional Economic Outlook, Middle East and Central Asia, May 2025* International Monetary Fund. Middle East and Central Asia Dept.,2025-05

Growth is projected to rise in the Middle East and North Africa in 2025 and 2026 but at a slower pace than anticipated in the October 2024 REO Across the region rising trade tensions and policy uncertainty are adding to the impact of conflicts and extended oil production cuts to weaken growth prospects In the Caucasus and Central Asia growth has been robust but is set to moderate to a more sustainable pace Policymakers must adapt to the new environment prioritizing macroeconomic stability and accelerating structural reforms to seize global opportunities **Investment and Growth in the Arab World - A Scoping Note**

International Monetary Fund,2016-02-05 Enhancing public and private investment but also ensuring that this translates into higher growth and employment have long been key policy challenges in Arab countries Reflecting an improvement in policies and global conditions investment rates in Arab countries have increased over the past couple of decades In spite of this and notwithstanding significant differences across the region investment has on average been somewhat weaker than in peer countries and less effective at generating growth Private investment particularly foreign direct investment FDI has underperformed significantly And while public capital spending has benefited from high oil prices in resource rich countries it has continued to lag in oil importers *Comparative Political and Economic Perspectives on the MENA Region* Erdoğan,

M. Mustafa,Christiansen, Bryan,2015-12-22 The region that includes the Middle East and Northern Africa MENA faces a diverse set of cultural political and economic issues Exploring the countries that are considered to be a part of the MENA region as well as comparing this region to the rest of the developing and developed world provides essential insight into the current state of the region as well and its future outlook *Comparative Political and Economic Perspectives on the MENA Region* takes a critical approach to analyzing the socio economic development of the MENA Region and the role of politics

Gressani,2014-04-11 The changing political landscape in the Arab world has created opportunities for economic transformation by tackling long standing economic issues Nevertheless three years after the onset of political transition implementing necessary economic policies has proven to be challenging This paper lays out key elements of economic policy reform for Arab countries in transition *Regional Economic Outlook Update: Middle East and Central Asia, January 2024* International Monetary Fund. Middle East and Central Asia Dept.,2024-01-31 The conflict in Gaza and Israel is yet another shock to the Middle East and North Africa MENA region It is causing immense human suffering and exacerbating an already challenging environment for neighboring economies and beyond This Update covers economies in the MENA region and does not discuss developments in Israel It discusses the updated outlook for the region risks and policy recommendations

Regional Economic Outlook, November 2018, Middle East and Central Asia International Monetary Fund. Middle East and Central Asia Dept.,2018-10-24 As in other regions in the world countries in MENAP and CCA regions are exposed to tightening in global financing conditions and ongoing global trade tensions The former has already begun to impact several emerging market economies in MENAP and could have more severe implications should financial market sentiment suddenly deteriorate Escalating global trade tensions will have a limited direct and immediate impact on these regions but could impart significant strains over time through negative effects on trading partners and through market confidence effects
