Reimagining God Lloyd Geering, 2014-11 **The Shift** Colby Martin, 2020-04-21 When Christians are kicked out of their conservative churches or leave because they no longer feel at home they embark on a journey of freedom and fear love and loneliness empowerment and pain The movement from conservative to progressive Christianity is a serious shift Colby Martin has traversed this treacherous territory survived its hardships and is now turning around to share what he s learned This book is a friendly survival guide to help followers of Jesus navigate the strange and confusing landscape when shifting from conservative to progressive Christianity This book will prepare progressive Christians from long time progressives to those just starting out for the pitfalls awaiting them as they shift out of their conservative world and it will equip them for a more abundant thriving and peace filled spiritual life *Honest To Goodness* Martin Prozesky, 2019-03-12 *Honest to Goodness* proposes a new Christian presence that is free of dogmatism exclusivism and biblicism It charts a way back to the spiritual and ethical revolution begun by Jesus of Nazareth one that can make a vital difference to needless evils such as bigotry environmental destruction poverty and violence The book reveals the author s experience of living under against and after apartheid insisting that a faith that does not confront this world s evils is no faith at all but a dangerous betrayal of all that is good beautiful and true *Honest to Goodness* unflinchingly identifies the grave moral shortcomings that are embedded in traditional Christian beliefs and practices and proposes ways of transforming them into harmony with the divine goodness that the author discerns everywhere Embracing a world of religious diversity science and creative philosophy the book describes a new way of experiencing and expressing the divine It defends faith by moving beyond both theism and atheism

The Genesis Hypothesis Louis Perry, *The Genesis Hypothesis* is simple nature created the heavens the earth and man and his gods Many maybe most people may ask What about a god being the creator To seek an answer we will examine both what scientists have uncovered on creation and what religious narratives tell us about creation Scientific discoveries have given insights into the creation of the universe the earth and biological life And from these studies we have learned about the evolution of *Homo sapiens* s ability to conceive of god narratives that describe the creation of the universe And from the narrative we have learned about creation stories by gods Thus we have two creation stories to consider nature and God Nature s story is based on observations and experiments and religious stories are based on interpretations of supernatural religious narratives written by man As would be expected when comparing the two creation stories based on two different authorities there are conflicts Using the Christian narrative as a reference we can identify the conflicts study and outline possible ways for lessening the conflicts Nature s information on the universe and religious concepts on creation will be around for many years so it is important to learn about each their conflicts and possible ways to live with both *A False Kind of Christianity* Dan Jensen, 2017-06-15 In this work Dan Jensen offers the conservative Evangelical community a no nonsense assessment of the growing and aggressive progressive Christian movement Jensen provides two chapters of

personal testimony a short overview of the history behind the progressive Christian movement a brief summary of the teachings of the movement and then he clearly elucidates the fact that the progressive Christian possesses absolutely no biblical foundation Jensen makes it clear why this movement must be countered by conservative Evangelicals **The Promise and Peril of AI and IA** Ted Peters,2023-12-31 How should public theologians and social ethicists assess anticipate and amend the projected path taken by Artificial Intelligence and Intelligence Amplification With the advent of generative AI along with large language models suddenly our techie whiz kids are sounding the fire alarm Will a Frankenstein monster escape its creator s design Will more highly evolved superintelligence render today s human race extinct Is this generation morally obligated to give birth to a tomorrow in which we outdated humans can no longer participate This book collects foresighted analyses and recommendations from computer scientists neuroscientists AI ethicists along with Christian and Muslim theologians AI and IA Ted Peters,2019-09-01 Will advances in AI Artificial Intelligence or IA Intelligence Amplification lead to the extinction of the human race as we know it Or will superintelligence lead to utopia In this collection of thoughtful essays we must first get clear on the question is artificial intelligence actually intelligent or not Only with an affirmative answer could our techies proceed toward their goal the creation of a superintelligence that leads through transhumanism to a posthuman entity that would replace today s human Should today s moderately intelligent human species voluntarily go extinct to make way for a more intelligent species to succeed us in evolutionary history These scientific questions are addressed in this volume in light of their theological ethical and social implications *Proceedings of Topical Issues in International Political Geography* Radomir Bolgov,Vadim Atnashev,Yury Gladkiy,Art Leete,Alexey Tsyb,Sergey Pogodin,Andrei Znamenski,2023-01-01 This proceedings book addresses the main issues of contemporary political geography and international relations providing a platform for discussion and collaboration of experts in the fields of Political Geography Geopolitics International Relations etc Participants from all over the world consider the controversies and challenges posed by globalization focusing in particular on the ideologies of globalization and regionalism migration crises prevention of ethnic conflicts and measures to promote sustainable development The content of the book may be interesting to expert community academics and popular audience *The Quaker World* C. Wess Daniels,Rhiannon Grant,2022-11-04 The Quaker World is an outstanding comprehensive and lively introduction to this complex Christian denomination Exploring the global reach of the Quaker community the book begins with a discussion of the living community as it is now in all its diversity and complexity The book covers well known areas of Quaker development such as the formation of Liberal Quakerism in North America alongside topics which have received much less scholarly attention in the past such as the history of Quakers in Bolivia and the spread of Quakerism in Western Kenya It includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts Global Quakerism Spirituality Embodiment Within these sections key themes are examined including global Quaker activity significant Quaker movements biographies

of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism The Quaker World provides an authoritative and accessible source of information on all topics important to Quaker Studies As such it is essential reading for students studying world religions Christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics *A Heretic's Guide to Eternity* Spencer Burke,Barry Taylor,2007-06-15

Distinguishing between religion and spirituality Burke offers what he calls a new way of looking at God one centered on the idea of grace He emphasizes a God who is looking to save the world not a God who seems more intent on condemning certain practices For Burke God is to be questioned not simply obeyed His challenging thesis will appeal to many people today who have given up on organized religion but still seek some connection to spirituality *Reimagining God* Tamara

Hartzell,2013-03-22 Reimagining God Turning the Light off to Look for Truth in the Corner of a Dark Round Room has been printed as two books Volume 1 consisting of Parts 1 5 and Volume 2 consisting of Part 6 which present an in depth look at the emerging new way of thinking From Christianity to the New Age to science and everything in between the new way of thinking is merging it all into a whole new faith of a whole new God of a whole new humanity and world Everything is changing for a reason Many in today s Christianity are succumbing to the darkness of this new way of thinking Many in today s Christianity are succumbing to the emerging faith of the Antichrist Many in today s Christianity will bow down to the image of the beast and take his mark That s right in today s Christianity Satan s emerging kingdom of his Antichrist is ready to burst forth in all its darkness in global opposition to God s coming Kingdom of His Son Where do you stand This emerging kingdom of darkness will go down in bitter defeat taking far too many souls with it in today s Christianity Is your soul going to be one of them How scriptural is your faith Does your faith come from inside or outside the box of the Word of God The mission is Oneness The path is darkness And the door to it all is Yea hath God said Yea God hath said And it is these words that are being dispensed with that are the only thing that stands between us and the hordes of hell that are on a soul destroying mission The subject presented in this book is as eternally grave and serious as it gets **Unbelieve** Marla

Taviano,2023-08-24 In unbelieve poems on the journey to becoming a heretic Marla Taviano welcomes you into a deconstruction space where you can let it all out let it all go and start heading in brave new directions The Fool and the

Heretic Todd Charles Wood,Darrel R. Falk,2019-02-05 The Fool and the Heretic is a deeply personal story told by two respected scientists who hold opposing views on the topic of origins share a common faith in Jesus Christ and began a sometimes painful journey to explore how they can remain in Christian fellowship when each thinks the other is harming the church To some in the church anyone who accepts the theory of evolution has rejected biblical teaching and is therefore thought of as a heretic To many outside the church as well as a growing number of evangelicals anyone who accepts the view that God created the earth in six days a few thousand years ago must be poorly educated and ignorant a fool Todd Wood and

Darrel Falk know what it s like to be thought of respectively as a fool and a heretic This book shares their pain in wearing those labels but more important provides a model for how faithful Christians can hold opposing views on deeply divisive issues yet grow deeper in their relationship to each other and to God **THE SPIRITUAL HERETIC** George Eisan,2023-07-04 This project is about my faith in God through Christ Yswah and how I came to this faith It has been a very long journey to get here Full of struggles pitfalls hurdles and a great deal of frustration To which I still have to this day But that is life wrapped up in a clay vessel We all have these issues How we deal them is determined by our faith in God And by how we decided to follow Yswah The One unique Son of God Do we step out in faith everyday and let Yswah lead us Or do we sit back and let someone else tell us their idea of how we should follow Christ Yswah and live for God If Christ is your Sheppard Why follow someone else *A Voluptuous God* Robert V. Thompson,2007 Voluptuous may not be a common word associated with God but the author speaks metaphorically of God in a way that calls us to laughter love and joy voluptuousness as full delight and invites us to worship a God of intimacy rather than a God of distance The light yet not trivial tone of this work supports the author s basic premise that we are meant to live our humanity joyfully thankfully and fully from our hearts The book is rooted in the Christian tradition but affirms that truth can also be found in other religions spirituality and secular practices **A Necessary Heretic** Stacy Lutz,2019-01-10 For those who have struggled to believe For those who have believed and now struggle For those who have searched for words to describe what they have come to believe For those who have searched for words to describe what they can no longer believe For those who have searched for the Good Parent God of Original Jesus You are not alone These words are for you A Necessary Heretic explores the complex issues of our time as well as long standing theological ideas through the lenses of an Original Jesus who saw God as the Good Compassionate More Mature Than You Can Imagine Parent This book is for anyone who wants to hold onto their Christian Faith while also being free to question some of the difficult things they have been taught and told Things which seem to go against what they increasingly see feel and experience With a gentle and compassionate approach A Necessary Heretic explores new ways of seeing through the eyes of an Original Jesus who came to set people free **Tried for Heresy** Andrew Furlong,2003 This is the remarkable true story of Andrew Furlong and how he was forced out for stating what many in the Church believe to be true the historic Jesus and the Christ of salvation are different figures *The God We Never Knew* Marcus J. Borg,1997 The God We Never Knew challenges readers to reclaim a stronger sense of God s presence and nearness by embracing an authentic contemporary faith that reconciles God with science critical thinking and religious pluralism How to Have Faith How to Even Think About God without having to stifle modern rationality is one of the most vital challenges facing many of us today Marcus Borg author of the bestselling Meeting Jesus Again for the First Time traces his spiritual journey to the discovery of an authentic yet fully contemporary understanding of God In a compelling readable way he leads us from the distant authoritative God of our childhood to an equally powerful dynamic adult understanding of God

Arguing that the modern crisis of faith is rooted in the misinterpretation of biblical texts and God's true nature Borg offers a fresh yet deeply grounded understanding of God that is more intellectually and spiritually satisfying Writing clearly summarizing some of the best of contemporary theology in non technical language Borg continues to speak to and to challenge the widest possible audiences Publishers Weekly A breath of fresh air a liberating book for Jews and Christians alike Rabbi Harold Kushner author of *When Bad Things Happen to Good People* The God I Left Behind Brian Holley, 2020-08-17 Brian Holley offers an excellent contribution to the gradual evolution of Christianity from the restrictions imposed on it by the church tradition He writes with a personal touch starting with his own journey and always relating his theological insights back to his own life experiences This grounds the theology in practice presenting a fresh view of the Oneness of the divine reality we call God and the original goodness in which we are held His chapter on The Teachings of Jesus Revisited is particularly perceptive an insightful summary of the direction Christianity must take to rediscover itself as a wisdom tradition of transformational love I thoroughly recommend it Revd Don MacGregor BSc MA author of *Blue Sky God The Evolution of Science and Christianity* *Not God's Type* Holly Ordway, 2010-04-21 Holly Ordway should never have become a Christian A young white highly educated atheist and professor of English she represents the kind of person that many observers of religion say cannot be converted anymore a demographic supposedly beyond the reach of the church in postmodern America Yet through a series of conversations with a wise and patient mentor Ordway not only became convinced of God's existence but also embraced Jesus as her Savior and Lord In this memoir of her conversion Ordway turns her analytical mind toward the path that leads from darkness to light from death to life Simultaneously encouraging and bracing she offers a bold testimony to the ongoing power of the Gospel a Gospel that can humble and transform even self assured accomplished and secular minded young professionals like herself
