**OECD Reviews of School Resources: Lithuania 2016** Shewbridge Claire, Godfrey Katrina, Hermann Zoltán, Nusche Deborah, 2016-03-25 The effective use of school resources is a policy priority across OECD countries The OECD Reviews of School Resources explore how resources

can be governed distributed utilised and managed to improve the quality equity and efficiency of school education     How Lives Change Himanshu, Peter Lanjouw, Nicholas Stern, 2018-08-01 Development economics is about understanding how and why lives change How Lives Change Palanpur India and Development Economics studies a single village in a crucially important country to illuminate the drivers of these changes why some people do better or worse than others and what influences mobility and inequality How Lives Change draws on seven decades of detailed data collection by a team of dedicated development economists to describe the evolution of Palanpur s economy its society and its politics The emerging story of integration of the village economy with the outside world is placed against the backdrop of a rapidly transforming India and in turn helps to understand the transformation It puts development economics into practice to assess its performance and potential in a unique and powerful way to show how the development of one village since India s independence can be set in the context of the entire country s story How Lives Change sets out the role of and scope for public policy in shaping the lives of individuals It describes how changes in Palanpur s economy since the late 1950s were initially driven by the advance of agriculture through land reforms the expansion of irrigation and the introduction of green revolution technologies Since the mid 1980s newly emerging off farm opportunities in nearby towns and outside agriculture became the key driver of growth and change profoundly influencing poverty income mobility and inequality in Palanpur Village institutions are shown to have evolved in subtle but clear ways over time both shaping and being shaped by economic change Individual entrepreneurship and initiative is found to play a critical role in driving and responding to the forces of change and yet against a backdrop of real economic growth and structural transformation this book shows that human development outcomes have shown only weak progress and remain stubbornly resistant to change     **South African**

**Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation

justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

**Handbook of Education Policy Research** Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-07-17 The second edition of the Handbook of Education Policy Research the largest volume published in AERA s history addresses a variety of policy and contextual issues in early childhood K 12 and postsecondary education that have received extensive empirical attention during the past 15 years With the pandemic and social turmoil as a backdrop the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects methods theories and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s The field has become more comprehensive and inclusive and the authors represent a diversity of racial ethnic and gender identities and intellectual and disciplinary orientations Most chapters come from multiple authors reflecting the multi sourced development of research in education policy since the first volume was published This compilation consists of 70 chapters and nine commentaries that map past present and future directions of the field and richly attend to critical issues of interest to students researchers policy makers and practitioners

**Michigan School Moderator** ,1892 *The Economics of Equity in K-12 Education* Goldy Brown III, Christos A. Makridis, 2023-02-07 Despite decades of increased state and federal funding for education student outcomes have largely deteriorated according to the 2022 NAEP exam results reading and math capabilities hit a thirty year low The emerging workforce is less prepared to handle the increasingly complex demands of the future which is likely to accelerate income inequality and stifle our nation s economic and social competitiveness Presenting the latest research on the economics of K 12 education this book makes recommendations about specific educational programming that have shown potential in increasing student outcomes for all learners focusing on human capital and practical recommendations for state and local policy makers and educational leaders
