*Google* Sarah Milstein, Rael Dornfest, 2004 Google is the planet's most popular program for finding stuff on the Web but it has no manual. As it turns out, Google has many hidden tricks and tools that can turn simple searching into powerful and successful discoveries. Google The Missing Manual is a friendly desk-side companion brimming with tips for getting more out of the world's favorite search program. 0 596 00613 6 19 95 O'Reilly Associates      **iPod: The Missing Manual** J.D.

Biersdorfer, 2006-11-16 With iPod and iTunes, Apple's gotten the world hooked on portable music pictures and videos. One thing they haven't delivered though is an easy guide for getting the most from your sleek little entertainment center. Enter iPod The Missing Manual 5th Edition, a book as breathtaking and satisfying as its subject. Our latest edition thoroughly covers the redesigned iPod Nano, the video iPod, the tiny Shuffle, and the overhauled iTunes 7. Each custom-designed page sports easy-to-follow color graphics, crystal-clear explanations, and guidance on the most useful things your iPod can do. Topics include: Out of the box and into your ears. Learn how to install iTunes, load music on your iPod, and how to get rid of that dang'ring flashing 'Do not disconnect' message. Bopping around the iPod. Whether you've got a tiny Shuffle or a big-screen model, you'll learn everything from turning your iPod off and on to charging your iPod without a computer. Special coverage for iPod owners with trickster friends. How to reset the iPod's menus to English if they've been changed to say Korean. In tune with iTunes. iTunes can do far more than your father's jukebox. Learn how to pick and choose which parts of your iTunes library loads onto your iPod, how to move your sacred iTunes Folder to a bigger hard drive, and how to add album covers to your growing collection. The power of the Pod. Download movies, play photo slideshows, find cool podcasts, and more. This book shows you how to unleash all your iPod's power. iPod is simply the best music player available, and this is the manual that should have come with it.

*Your Brain: The Missing Manual* Matthew MacDonald, 2008-05-29 Puzzles and brain twisters to keep your mind sharp and your memory intact are all the rage today. More and more people, Baby Boomers and information workers in particular, are becoming concerned about their gray matter's ability to function, and with good reason. As this sensible and entertaining guide points out, your brain is easily your most important possession. It deserves proper upkeep. Your Brain The Missing Manual is a practical look at how to get the most out of your brain, not just how the brain works but how you can use it more effectively. What makes this book different than the average self-help guide is that it's grounded in current neuroscience. You get a quick tour of several aspects of the brain, complete with useful advice about Brain Food, the right fuel for the brain, and how the brain commands hunger, including an explanation of the different chemicals that control appetite and cravings. Sleep. The sleep cycle and circadian rhythm, and how to get a good night's sleep or do the best you can without it. Memory. Techniques for improving your recall. Reason. Learning to defeat common-sense logical fallacies, including tactics for winning arguments and good reasons for bad prejudices. Creativity and Problem Solving. Brainstorming tips and thinking not outside the box but about the box, in other words, find the assumptions that limit your ideas so you can break

through them Understanding Other People s Brains The battle of the sexes and babies developing brains Learn about the built in circuitry that makes office politics seem like a life or death struggle causes you to toss important facts out of your memory if they re not emotionally charged and encourages you to eat huge amounts of high calorie snacks With Your Brain The Missing Manual you ll discover that sometimes you can learn to compensate for your brain or work around its limitations or at least to accept its eccentricities Exploring your brain is the greatest adventure and biggest mystery you ll ever face This guide has exactly the advice you need

**Word 2007: The Missing Manual** Chris Grover,2006-12-21 Microsoft Word has grown considerably in power sophistication and capability over the past decade but one thing that hasn t changed since the early 90s is its user interface The simple toolbar in version 2 0 has been packed with so many features since then that few users know where to find them all Consequently more and more people are looking for insider tips that will allow them to use these advanced and often hidden features Microsoft has addressed this problem in Word 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft s documentation is as scant as ever so even though you will be able to find advanced features you might not know what to do with them Word 2007 The Missing Manual written specifically for this version of the software explains basics like how to create documents enter and edit text format print and fax You will will also learn how to create sophisticated page layouts insert forms and tables use graphics and create book length documents with outlines and Master Documents Coverage also includes how to share documents with other people and programs create web pages automate documents with fields and automate tasks with macros and the Visual Basic scripting language This book shows you how to do it all
