Digital Activism in Zimbabwe Tenford Chitanana,2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book

also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony **Political Handbook of the World 2022-2023** Tom Lansford,Jorge Brown,2023

Group,2016-01-14 Digital technologies are spreading rapidly but digital dividends the broader benefits of faster growth more jobs and better services are not If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone why can t others around the world do the same If 8 million entrepreneurs in China one third of them women can use an e commerce platform to export goods to 120 countries why can t entrepreneurs elsewhere achieve the same global reach And if India can provide unique digital identification to 1 billion people in five years and thereby reduce corruption by billions of dollars why can t other countries replicate its success Indeed what s holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver Two main reasons First nearly 60 percent of the world s population are still offline and can t participate in the digital economy in any meaningful way Second and more important the benefits of digital technologies can be offset by growing risks Startups can disrupt incumbents but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms Employment opportunities may be greater but not when the labor market is polarized The internet can be a platform for universal empowerment but not when it becomes a tool for state control and elite capture The World Development Report 2016 shows that while the digital revolution has forged ahead its analog complements the regulations that promote entry and competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog complements to digital investments are absent the development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere *Political Handbook of the World 2020-2021* Tom Lansford,2021-05-31 The Political Handbook of the World by Tom Lansford provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2020 2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for

its extensive coverage of all major and minor political parties and groups in each political system The Political Handbook of the World 2020 2021 also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years

Fast Track Land Occupations in Zimbabwe Kirk Helliker, Sandra Bhatasara, Manase Kudzai Chiweshe, 2021-01-11 This book offers the first detailed scholarly examination of the nation wide land occupations which spread across the Zimbabwean countryside from the year 2000 and led to the state's fast track land reform programme In an innovative way it highlights the decentralized character of the occupations by recognizing significant spatial variation around a number of key themes including historical memory modes of mobilization and gender A case study of the land occupations in Mashonaland Central Province based on original research adds empirical weight to the argument In further identifying and understanding the specificities and complexities of the land occupations the book also frames them by way of a nuanced comparative historical analysis of the three chimurenga It thus examines the land occupations referred to likely controversially as the third chimurenga with reference to the original anti colonial revolt from the 1890s the first chimurenga and the war of liberation in the 1970s the second chimurenga Further the book engages critically with the ruling party's chimurenga narrative and the hegemonic understanding of the land occupations within Zimbabwean studies This book is a crucial read for all scholars and students of post 2000 land and politics in Zimbabwe but also for those more broadly interested in historical comparative analyses of land struggles in Zimbabwe and beyond

normative guidance Mediating Gender in African Social Media Shepherd Mpofu, Kealeboga Aiseng, 2025-09-18 Through African case studies this book explores how gender and sexuality are articulated on social media. While the representation of gender in mainstream media has been studied for many decades, this book fills a gap by focusing on social media platforms like Facebook, X, Instagram, and TikTok, and examining representation, commodification, and sexuality on these platforms. The contributors hold a mirror to society and reflect on the issues in our current world of empowerment where sexuality and gender preferences are respected and sexual rights are protected by constitutions in progressive democracies. Through their research, Shepherd Mpofu, Kealeboga Aiseng, and the contributors strive to alter the male gaze, commercial benefits of commodification, and African culture as benefited and influenced by patriarchal societies.
