ICTMT 2019 Sharina Osman, Ilham Sentosa, Putu Ngurah Suyatna Yasa, Mirsa Umiyati, I Gede Suranaya Pandit, 2019-08-19 The 1st International Conference on Tourism Management and Technology is motivated by improving the quality of research and development relating to tourism management and technology fields. Thus, this conference has aims: 1 to bring together the scientists, researchers and practitioners and lecturers; 2 To share and to discuss theoretical and practical knowledge about innovation in tourism management and technology fields. The conference took place in Universiti Kuala Lumpur, Malaysia, on August 17th, 2019. There are 34 papers that are participated from various topics. The conference involves tourism management and technology fields such as Media and Technology in Tourism, Innovation in Tourism, The Theoretical Perspective on Tourism, Sustainable Tourism, Gender and Diversity Issue in Tourism, Technology and Management on Tourism, Law in Tourism, Health Tourism, Tourism Policy and Planning, Tourism and Environment, Finance in Tourism. Specifically, this conference can be used as a scientific forum for accommodating discussion among young researchers that originated from Indonesia in the field of Tourism Management and Technology. Therefore, the invited speakers in this conference are the researchers that are well known and reputable in the world. We would like to thank the organizing committee and the members of reviewers for their kind assistance in reviewing the papers. We would also extend our best gratitude to keynote speakers for their invaluable contribution and worthwhile ideas shared in the conference. Furthermore, ICTMT is hoped to be able to be used as academic media to exchange ideas and as a result, it will succeed in deciding the recommendation related to the tourism management and technology phenomenon.

When the Seas Rise Heather Dewar, University of Florida, 2016-05-18 University of Florida has an ambitious goal to harness the power of its faculty, staff, students and alumni to solve some of society's most pressing problems and to become a resource for the state of Florida, the nation and the world. Sea levels are rising around the globe and in Florida with its 1,200 miles of coastline and mostly flat topography, this is of particular concern. The state depends on coastal cities where 75 percent of the population lives and where more than four fifths of its economic activity takes place. When economists tally up the likely costs of rising seas, they rank Florida as the most vulnerable state in the nation and Miami as one of the most vulnerable major cities in the world. When the Seas Rise takes us on an alarming journey from the dying coastal forests where salt-killed tree trunks stand like sentinels of a retreating army to the high tide flooded streets of cities from St. Augustine to Key West. Meet the scientists at the University of Florida, researchers in biology, geology, entomology, horticulture, urban and regional planning as well as other fields who along with other experts around the state are planning for the sea change already upon us and the greater changes to come. They are working around the clock to predict how global climate shifts will affect the state to protect drinking water and slow the effects of flooding to develop new ways to farm to save our butterflies, sea turtles, Key deer and other endangered creatures to preserve the state's economy and to help coastal dwellers plan future havens for the people and wildlife of

Florida The stories chronicled in GATORBYTES span all colleges and units across the UF campus They detail the far reaching impact of UF s research technologies and innovations and the UF faculty members dedicated to them Gatorbytes describe how UF is continuing to build on its strengths and extend the reach of its efforts so that it can help even more people in even more places

Guinea International Monetary Fund. African Dept.,2016-04-04 This report reviews Guinea s economic performance under the program supported by an Extended Credit Facility ECF arrangement Guinea was declared free of the Ebola epidemic at end 2015 and after two years of stagnant activity growth is expected to rebound this year After solid performance in 2014 ECF program implementation weakened in 2015 Following last October s Presidential elections there has been a concerted effort to bring the ECF supported program back on track Macroeconomic policies for 2016 aim to improve reserves coverage to three months of imports and keep inflation within single digit figures as envisioned in the 2015 ECF supported program The 2016 budget envisions a significant broad based fiscal contraction

Mali International Monetary Fund. African Dept.,2016-12-07 This paper discusses Mali s Sixth Review Under the Extended Credit Facility Arrangement and Request for Modification of a Performance Criterion Economic activity in Mali remains robust aided both by higher public investment and accommodative monetary conditions Inflation remains subdued helped by favorable weather conditions and low global inflation The external position has weakened reflecting strong domestic demand growth but is expected to strengthen in the near term as terms of trade improve and demand growth slows down The near term outlook remains positive but is subject to downside risks stemming mainly from the fragile security conditions

As Professors Lay Dying Jacques Berlinerblau,2025-09-30 As professors in the United States are being paid less and less to teach more and more undergraduates prospective students need all the information they can get about receiving their tuition dollars worth About to choose a college About to make an investment that might exceed a quarter million dollars Worried about ideological indoctrination on university campuses Then you need to know a lot about professors There has been perhaps no worse time to be a scholar in the United States than now The misery experienced by the professoriate has immediate and dramatic effects on the education that undergraduates receive As Professors Lay Dying seeks to help you answer the following questions 1 How important are professors to my college education 2 How seriously do they take the responsibility of teaching undergraduates 3 What kind of professors are actually in the classroom working with American coeds 4 Is ideological indoctrination a real danger to the nation s matriculated youth 5 What kind of schools should a discerning college shopper look for 6 Ultimately why are professors so essential to the delivery of a first class education Colleges don t advertise the state of their faculty but it might be the most important factor in your decision This book pulls back the curtain on the profession that shapes the minds of the next generation

Kirton, Ella Kokotsis, 2016-03-03 Climate change control has risen to the top of the international agenda Failed efforts centred in the United Nations to allocate responsibility have resulted in a challenge now reaching crisis stage John J Kirton and Ella Kokotsis analyse the generation and effectiveness of four decades of intergovernmental regimes for controlling global climate change Informed by international relations theories and critical of the prevailing UN approach Kirton and Kokotsis trace the global governance of climate change from its 1970s origins to the present and demonstrate the effectiveness of the plurilateral summit alternative grounded in the G7 8 and the G20 Topics covered include G7 8 and UN competition and convergence on governing climate change Kyoto obligations and the post Kyoto regime The role of the G7 8 and G20 in generating a regime beyond Kyoto Projections of and prescriptions for an effective global climate change control regime for the twenty first century This topical book synthesizes a rich array of empirical data including new interview and documentary material about G7 8 and G20 governance of climate change and makes a valuable contribution to understanding the dynamics of governing climate change It will appeal to scholars researchers and policy makers interested in the dynamics behind governance processes within the intergovernmental realm Trade Policy Review , 2019 *The Scottish Economy* Kenneth Gibb, Duncan MacLennan, Des McNulty, Michael Comerford, 2017-07-06 The Scottish economy is at the heart of contemporary constitutional and public policy debates This substantial new edited collection the first comprehensive and authoritative analysis for more than 60 years is a timely update on the classic volume of the same name edited by Sir Alec Cairncross in 1954 It is data rich and offers links to updatable data and leading indicators of the Scottish economy including measures of public finances distributional evidence and growth Readers will find a series of easy to follow chapters covering the Scottish economy from every angle oil and gas health education finance rural Scotland inequality climate change gender and work housing infrastructure and cities Each sector based chapter explores the main issues draws out key empirical facts and considers policy challenges that lie ahead This book includes an historical account of the development of the Scottish economy the trajectory of economic policy in Scotland reviews of the current fiscal position and the wider economic landscape and also an intriguing insight into the emerging distinctive approach to Scottish public policy This book brings together evidence and high quality research by experts on the Scottish economy in a politically neutral accessible and non technical way The volume will assist readers in navigating their way through the many political debates about constitutional and economic futures that are underway in modern Scotland and the UK A website also exists to accompany *The Scottish Economy* www.scottisheconomy.scot In today s inter connected world it makes sense to have a book on the Scottish economy supplemented by online access to important data information and evidence as a means of keeping material current Advanced Microbial Biotechnologies For Sustainable Agriculture Ying Ma, Miroslav Vosatka, Christopher Rensing, Helena Freitas, 2021-05-25 **The Once and Future Worker** Oren Cass, 2018-11-13 Cass s core principle a culture

of respect for work of all kinds can help close the gap dividing the two Americas William A Galston The Brookings Institution

The American worker is in crisis Wages have stagnated for more than a generation Reliance on welfare programs has surged Life expectancy is falling as substance abuse and obesity rates climb These woes are not the inevitable result of irresistible global and technological forces They are the direct consequence of a decades long economic consensus that prioritized increasing consumption regardless of the costs to American workers their families and their communities Donald Trump s rise to the presidency focused attention on the depth of the nation s challenges yet while everyone agrees something must change the Left s insistence on still more government spending and the Right s faith in still more economic growth are recipes for repeating the mistakes of the past In this groundbreaking re evaluation of American society economics and public policy Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to reveal how we lost our way The good news is that we can still turn things around if the nation s proverbial elites are willing to put the American worker s interests first Which is more important pristine air quality or well paying jobs that support families Unfettered access to the cheapest labor in the world or renewed investment in the employment of Americans Smoothing the path through college for the best students or ensuring that every student acquires the skills to succeed in the modern economy Cutting taxes expanding the safety net or adding money to low wage paychecks The renewal of work in America demands new answers to these questions If we reinforce their vital role workers supporting strong families and communities can provide the foundation for a thriving self sufficient society that offers opportunity to all
