Physics and Literature Aura Heydenreich, Klaus Mecke, 2021-12-20 Physics and Literature is a unique collaboration between physicists literary scholars and philosophers the first collection of essays to examine together how science and literature beneath their practical differences share core dimensions forms of questioning thinking discovering and communicating insights This book advances an in depth exploration of relations between physics and literature from both perspectives It turns around the tendency to discuss relations between literature and science in one sided and polarizing ways The collection is the result of the inaugural conference of ELINAS the Erlangen Center for Literature and Natural Science an initiative dedicated to building bridges between literary and scientific research ELINAS revitalizes discussion of science literature interconnections with new topics ideas and angles by organizing genuine dialogue among participants across disciplinary lines The essays explore how scientific thought and practices are conditioned by narrative and genre fiction models and metaphors and how science in turn feeds into the meaning making of literary and philosophical texts These interdisciplinary encounters enrich reflections on epistemology cognition and aesthetics Cognitive Linguistics - Foundations of Language Ewa Dąbrowska, Dagmar Divjak, 2019-07-08 Cognitive foundations of language introduces the reader to the abilities and processes in which research in Cognitive Linguistics is grounded The book looks at key concepts such as embodiment salience entrenchment construal categorization and collaborative communication and discusses their genesis and implications for cognitive linguistic research Handbook of Cognitive Linguistics Ewa Dąbrowska, Dagmar Divjak, 2015-05-19 Cognitive Linguistics is an approach to language study based on the assumptions that our linguistic abilities are firmly rooted in our cognitive abilities that meaning is essentially conceptualization and that grammar is shaped by usage The Handbook of Cognitive Linguistics provides state of the art overviews of the numerous subfields of cognitive linguistics written by leading international experts which will be useful for established researchers and novices alike It is an interdisciplinary project with contributions from linguists psycholinguists psychologists and computer scientists which will emphasise the most recent developments in the field in particular the shift towards more empirically based research In this way it will we hope help to shape the field encouraging methodologically more rigorous research which incorporates insights from all the cognitive sciences Editor Ewa Dąbrowska was awarded the Alexander von Humboldt Professorship 2018 *UK Wind Energy Technologies* Simon Hogg, Christopher Crabtree, 2016-08-05 Phase 1 of the EPSRC SUPERGEN Wind programme began in March 2006 and work continued under Phase 2 until March 2014 The strategic aim was to re establish a strong research community in wind energy technologies across the UK s leading academic and industrial research organisations UK Wind Energy Technologies gives a comprehensive overview of the range of wind energy research undertaken in the UK under Phases 1 2 to achieve this goal Specific topics covered in the book include wind resource assessment turbine array layout environmental interactions control of turbines drive train reliability and condition

monitoring turbine array electrical connection power transmission to grid assessment of operations and maintenance strategies and the analysis of turbine foundations and structures Since the completion of Phase 2 the Supergen Wind consortium partners have formed a networking Hub which is now the principal national coordinating body for academic research into wind energy in the UK This book will be of interest to researchers and engineers from industry and academia and also provides workers from other countries with an overview of the range of activity within the UK resulting from the SUPERGEN Wind programme to date

High-Performance Bolting Technology for Offshore Oil and Natural Gas Operations National Academies of Sciences, Engineering, and Medicine, National Academy of Engineering, Division on Engineering and Physical Sciences, National Materials and Manufacturing Board, Committee on Connector Reliability for Offshore Oil and Natural Gas Operations, 2018-07-12 Commercially significant amounts of crude oil and natural gas lie under the continental shelf of the United States Advances in locating deposits and improvements in drilling and recovery technology have made it technically and economically feasible to extract these resources under harsh conditions But extracting these offshore petroleum resources involves the possibility however remote of oil spills with resulting damage to the ocean and the coastline ecosystems and risks to life and limb of those performing the extraction The environmental consequences of an oil spill can be more severe underwater than on land because sea currents can quickly disperse the oil over a large area and thus cleanup can be problematic Bolted connections are an integral feature of deep water well operations High Performance Bolting Technology for Offshore Oil and Natural Gas Operations summarizes strategies for improving the reliability of fasteners used in offshore oil exploration equipment as well as best practices from other industrial sectors It focuses on critical bolting bolts studs nuts and fasteners used on critical connections

Natural Final Causality and Scholastic Thought Corey Barnes, 2024-08-13 This book examines scholastic conceptions of final causality through the methods and concerns of historical theology It argues the history of final causality is most profitably understood according to the interplay of regularity order and intentionality as interpretive categories Within this analytic framework the author explores the history and theological implications of final causality from Aristotle to Nicole Oresme utilizing shifts in the dominant interpretive category to clarify how final causality could change from one of four co equal explanatory strategies in Aristotle to the cause of causes in Avicenna to a merely metaphorical cause in Walter Chatton Theological debates ranging from questions of creation the relationship of primary and secondary causality and of the ultimate good to

secondary goods the autonomy or instrumentality of nature and the compatibility of chance with providence motivated many of these changes The chapters examine final causality in Aristotle and the commentarial tradition from late antiquity to medieval Arabic sources and then consider in detail various scholastic understandings and uses of final causality The book will be of particular interest to scholars of historical theology systematic theology scholastic thought and medieval philosophy

Advancing Culturally Responsive Research and Researchers Penny A. Pasque,e alexander,2022-08-19 Advancing Culturally Responsive Research and Researchers Qualitative Quantitative and Mixed Methods encourages readers to design and engage in methodologies and methods that place cultural relevancy at the center of inquiry In doing so it highlights the need to uplift voices and needs of people who have been historically marginalized in the environments that we both inhabit and engage in as part of knowledge construction The scholars whose work is featured in this volume take up research from different paradigmatic ontological epistemological axiological and methodological approaches yet with adherence to centering cultural responsiveness in all research decisions Each chapter seeks to extend understandings of social inequities methodologies and or methods and to contribute to meaningful and evolving social change through innovative and cutting edge research strategies While doing this work the authors illustrate and highlight the importance of researcher positions and reflexivity in supporting the expansion of culturally responsive approaches they also do so while considering global sociopolitical conditions of this moment in time The contributions to this volume were initially presented at the first biennial Advanced Methods Institute in 2021 The Institute was hosted by QualLab in The Ohio State University s College of Education and Human Ecology and shared this volume s thematic focus As a handbook the volume can help faculty and advanced researchers with interest in doing culturally responsive projects to better understand frameworks approaches and considerations for doing so It includes activities to support readers in developing said understandings Enhancing the Effectiveness of Team Science National Research Council,Division of Behavioral and Social Sciences and Education,Board on Behavioral, Cognitive, and Sensory Sciences,Committee on the Science of Team Science,2015-07-15 The past half century has witnessed a dramatic increase in the scale and complexity of scientific research The growing scale of science has been accompanied by a shift toward collaborative research referred to as team science Scientific research is increasingly conducted by small teams and larger groups rather than individual investigators but the challenges of collaboration can slow these teams progress in achieving their scientific goals How does a team based approach work and how can universities and research institutions support teams Enhancing the Effectiveness of Team Science synthesizes and integrates the available research to provide guidance on assembling the science team leadership education and professional development for science teams and groups It also examines institutional and organizational structures and policies to support science teams and identifies areas where further research is needed to help science teams and groups achieve their scientific and translational goals This report offers major public policy recommendations for science research agencies and policymakers as well as

recommendations for individual scientists disciplinary associations and research universities Enhancing the Effectiveness of Team Science will be of interest to university research administrators team science leaders science faculty and graduate and postdoctoral students
