Parliament. House of Commons. Environmental Audit Committee,2002 This document details the Government s reply to the Committee s report HC 363 I ISBN 0215001710 on the environmental tax measures contained within the Pre Budget Report 2001 and its likely implications for the environment and sustainable development Other matters discussed include the role of the Treasury the Spending Review 2002 and the need for greater clarity and transparency in the figures set out in spending reviews and budgets *Budget 2009* Great Britain. Treasury,2009 The Budget sets out the Government s plans for taxation public spending and economic growth for the coming year Details announced include an annual growth rate of 2 5 per cent for 2006 07 with a forecast of 2 75 to 3 25 per cent for 2007 08 an inflation rate of two per cent this year and public sector borrowing on course for a 16 billion surplus over the economic cycle ending in 2010 11 with net borrowing set at 37 billion for this year and 36 billion next year falling to 23 billion in the year to 2010 11 **The 2006 pre-budget report** Great Britain: Parliament: House of Commons: Treasury Committee,2007-01-25 This report from the Treasury Committee

examines the recent economic analysis and assessment of the UK economy as outlined in the 2006 pre budget report and sets out a number of conclusions and recommendations including the Committee welcomes the recent rise in the growth rate of business investment but with the caveat that the downside risk as highlighted in a previous weakness for business investment remains unexplained that several risks exist around the consumption growth forecast including the potential of house prices to fall and the increase of personal insolvency the employment rate rise is commended but a lack of migration statistics in relation to the labour market means an overall assessment is not possible although an improved forecast for economic growth in 2006 the Treasury has not forecast an improvement in the fiscal position the Government appears to be on track to meet the golden rule in the current economic cycle but will start the next economic cycle with its current budget in deficit the Committee recommends also that the Treasury in future Budgets and Pre Budget reports provide a fuller explanation of its current forecast of the start and end dates of the current economic cycle also future Budget and Pre Budget reports should provide a breakdown of reported efficiency gains by department and further to enhance transparency and enable effective scrutiny the Treasury should require departments in their departmental annual reports and Autumn Performance reports in 2007 and in later years to provide consistent and comprehensive information on progress against efficiency targets the Committee expressed dissatisfaction at the lateness and vagueness of information in relation to expenditure on education but approved the early announcement of capital spending plans for education up to 2010 11 the Committee though does welcome the Government's decision to commission and publish a range of reviews informing future economic policy including tax policy the Pre Budget report is seen as an effective instrument of fiscal consultation but this could be enhanced if Parliament and the public were given greater notice of the date of the report perhaps 4 weeks before the statement is due to be made where tax changes carry significant risk of forestalling activity or distorting market behaviour such as the unusual timing and implementation of the increases in Air Passenger Duty the Committee feels as a general rule that those increases should not come into force until the House of Commons has had an opportunity to come to a formal decision on such an increase

Pre-budget Report 2008 Great Britain. Parliament. House of Commons. Treasury Committee, 2009 The Treasury Committee's report on the Pre Budget Report 2008 Cm 7484 ISBN 9780101748421 considers that the balance of risks to the Treasury's forecast for a swift recovery in economic growth for 2010 after a significant decline in output in 2009 is on the downside The report highlights the lack of bank lending as the single most critical problem for the economy in the near term The overall effect of the fiscal stimulus remains uncertain the cost of the reduction in VAT is considerable and in the view of the majority of commentators the Treasury's analysis of its impact is an optimistic

one The report notes that the risk of a self reinforcing deflationary cycle exists in the UK economy at present and recommends that the Treasury prepare and publish the actions it may consider taking should a period of quantitative easing be needed While the need for lower interest rates to maintain economic growth is crucial at the present time the needs of savers must not be forgotten and the Treasury should consider measures that will also support savers at this difficult time The report notes with concern that the Pre Budget Report contains no policy measures which will significantly advance meeting the 2010 child poverty target *The 2005 Pre-budget Report* Great Britain: Parliament: House of Commons: Treasury Committee,2006-01-25 The Committee s report examines the Government s Pre Budget Report 2005 Cm 6701 ISBN 0101670125 published in December 2005 Issues discussed include the state of the economy including the UK Presidency of the G8 UK economic growth estimates for 2006 and beyond and consumer spending and public finance matters as well as issues relating to taxation and pensions Recommendations made include that the Treasury should give at least four weeks notice of the date of the Pre Budget Report in order to enable sufficient parliamentary scrutiny and if this target is not met the Treasury should give an account of the reasons why **The 2005 Pre-budget Report** Great Britain: Parliament: House of Commons: Treasury Committee,2006-03-30 Reply to 2nd report HCP 739 ISBN 0215027078 *Pre-budget report December 2009* Great Britain: H.M. Treasury,2009-12-09 The 2009 Pre Budget Report Cm 7747 ISBN 9780101774727 Securing the recovery growth and opportunity presents updated assessments and forecasts of the economy and public finances and reports on how in the face of the downturn the Government is delivering support to the economy businesses and households to secure the recovery and provide a platform for growth and opportunity Announcements in the Pre Budget include support for business and growth including extending empty property relief and the Enterprise Finance Guarantee and deferring the increase in the Small Companies rate for another year support for low carbon growth through doubling from two to four for the UK s commitment to fund carbon capture and storage demonstration projects including increasing support for low carbon vehicles support for individuals so that 18 24 s claiming Jobseekers Allowances for 6 months will be guaranteed a job work placement or work related skills training The Pre Budget also announces that a temporary payroll tax for 50% will apply to discretionary bonuses above 25 000 for individual employees There will also be an increase of 0 5% in the employee employers and self employed rates of national insurance contributions from April 2011 a freeze in the point at which individuals start to pay the higher rate of income tax in 2012 13 a restriction of pensions tax relief from April 2011 The Pre Budget also sets out the Government s plans to reduce borrowing by 5 5% of GDP in 2013 14 *The 2007 pre-budget report* Great Britain: Parliament: House of Commons: Treasury Committee,2007-11-26 This report from the Treasury Committee considers the state of the United Kingdom economy the public finances and individual tax measures in the 2007 Pre Budget Report Cm 7227 ISBN 0101722729 The Committee examines the Pre Budget Report under the following areas the real economy the public finances taxation issues and the role of the Pre budget report The Committee has set out 21

conclusions and recommendations including that the risk remains that the credit crunch will have greater macroeconomic effect than expected that the Treasury needs to recast the way in which it presents the risks to the economic forecasts in both Pre budget and Budget reports the Committee reiterates an earlier recommendation that the Government review the golden rule such that it becomes more forward looking and less dependent upon the dating of the economic cycle the Committee expressed concern about the reform of the capital gains tax regime and the possible detrimental effects that the withdrawal of taper relief could have on small businesses employee shareholders and longer term investment that it is important that the Pre Budget retains a focus on consultation on fiscal measures that may be included in the forthcoming budget

Pre-budget Report 2009 Great Britain: Parliament: House of Commons: Treasury Committee,2010 This report acknowledges that deciding the right time for fiscal consolidation requires making a fine judgement about the resilience of the recovery It emphasises that a plan to restore the health of the public finances must deal with the structural deficit While the Treasury aims to cut the deficit from 9% of GDP to 3.6% of GDP in four years the expert witnesses who examined it all criticised the document for not providing enough information about how this will be achieved Future Budgets and PBRs should attempt to quantify the downside risks around the structural deficit forecast There will be uncertainty in these figures but they are produced as part of the Spending Review process so there appears to be no argument against their publication Similarly the Bank of England publishes forecasts showing the possible range of inflation rates and publishing information about debt interest on a similar basis would be useful The recession appears to have had substantially less impact on the labour market than might have been feared though concern remains about the level of youth unemployment Repossessions have been far lower than expected however it is recommended that the Treasury proceeds cautiously over the timing of removal of Government support in this area We do not want to see a return to the times of easy credit but the Government needs to remain aware of the risk that lending will not support renewed private sector growth as the public sector retrenches The purpose of the tax on bank bonuses is to change behaviour so that banks increase their capital rather than providing large discretionary payments to employees The next Parliament needs to examine the effectiveness of any regime introduced by the Financial Services Bill in terms both of its success in altering bank behaviour and of its effect on the competitiveness of the UK financial sector

Pre-budget Report 2009 Great Britain,2010 **The 2004 Pre-budget Report** Great Britain. Parliament. House of Commons. Treasury Committee,2005 The Committee has examined the Treasury's Pre Budget Report PBR Cm 6408 ISBN 010164082X published in December 2004 which set forecasts for the economy and public finances and reported on the implementation of the Government's long term goals Conclusions reached by the Committee include that the UK's presidencies in 2005 of both the G8 and the EU puts the Government in a strong position to play a positive role in advancing discussions on global economic reform and fairer trade with developing countries the Treasury's growth forecast for 2005 is more optimistic than the external consensus although the gap probably lies within the bounds of

forecasting error and the Treasury's recent forecasting record for economic growth has been good there are concerns that it is unlikely the Treasury will be able to meet its golden rule for current borrowing levels for public finances. The Committee also restates its previous criticism for the short period of notice given for publication of the PBR. **Pre-Budget Report**, 1997. 2003 Pre-Budget Report Third Report of Session 2002-03 Report, Together with Formal Minutes, Oral and Written Evidence, 2004-01. The Committee's report examines a range of aspects regarding the Treasury's Pre Budget Report PBR. The strength to take the long term decisions for Britain Cm 6042 ISBN 010160422X. Findings include that the UK economy's weathering of the recent economic slowdown has been achieved despite the weakness amongst its major trading partners in the EU and despite a disappointing trend in investment and exports the level of growth achieved for 2003 is likely to have been within the range forecast by the Government at the time of the Budget. Recent data suggest that the imbalances in the economy have been reduced but not removed. Concern is noted about the impact of the fall in the dollar and regarding continuing uncertainty over the impact of corporate pension fund deficits given the lack of official information.

Pre-Budget Report Great Britain. Parliament House of Commons. Treasury Committee, Treasury Committee, 2003-01. The Committee's report recommends that the Treasury and the Bank of England undertake a joint review of inflation targeting in order to examine its impact on sectoral imbalances. In the interests of fuller parliamentary scrutiny the Committee also calls on the Government to allocate time for a debate on the pre Budget report on the floor of the Commons and to give at least two months notice of the date of the Budget statement. It reviews the Treasury's revised forecasts for the UK economy and questions whether the targets for 2004 and 2005 are still too optimistic. It notes that there are increasing imbalances in the UK economy particular house price inflation which pose potentially serious dangers to future economic stability and growth. While the Treasury is on course to meet its fiscal rules the Committee notes that in the light of experience it would be prudent to keep the workings of the fiscal rules under review.
