Rooted The Story Of Cvc:

Rooted Blake Hiemstra, 2015-01-03 *Rooted* tells the story of the birth and growth of Central Valley Christian School. The book details its remarkable history from the humble beginning with a crew of 4 brave teachers and 64 pioneering students who met for three years in the cramped conditions of a local church all the way to the sprawling modern day campus that now houses the school. *Rooted* traces the teachers, students and parents who stepped out in faith and the loving God who wrote the CVC story on the pages of their lives.

A Grammar of Semelai Nicole Kruspe, 2004-04-08 *Semelai* is a previously undescribed and endangered Aslian Mon Khmer language of the Malay Peninsula. This book, the first in-depth description of an Aslian language, provides a comprehensive reference grammar of *Semelai*. *Semelai* intertwines two types of morphological system: a concatenative system of prefixes, suffixes and a circumfix acquired through extended contact with Malay, and a nonconcatenative system of prefixes and infixes including infix reduplication inherited from Mon Khmer. There are distinctive word classes: Nominals, Verbs and Expressives; the latter iconic utterances which simultaneously provide information about the predicate and its arguments. *Semelai* has many derivational processes which change word class or affect transitivity and it combines both head marking and dependent marking profiles. It also has a rich phonemic system of 20 vowels and 32 consonants. Nicole Kruspe's discussion is complemented with a generous number of illustrative examples and texts, creating a reference work that will be welcomed by descriptivists and typologists alike.

A Grammar of Nese Lana Grelyn Takau, 2023-08-15 *Nese* is a dying Oceanic language spoken on the island of Malekula in northern Vanuatu. This book, based on first-hand fieldwork data and without adhering to any particular syntactic framework, presents a synchronic grammatical description of *Nese*'s phonology and syntax. Despite being on the verge of extinction with fewer than 20 living speakers, the language displays intriguing properties including but not exclusive to the cross-linguistically rare apicolabial phonemes, interesting vowel raising patterns in some word classes and a discontinuous negation relationship that is obligatorily expressed with the irrealis mood marker. This book will probably be the last work published on *Nese*.

A Grammar of Unua Elizabeth Pearce, 2015-03-10 The book presents a description of *Unua*, one of two dialects of *Unua* Pangkumu, an Oceanic language of Malakula Island, Vanuatu. *Unua* has about 700 speakers who are bilinguals using *Unua* in local interactions and using the national language, Bislama, non-locally as well as in local public and religious settings. The description is based on material collected in the field from speakers of different age groups in the five *Unua* villages. The data corpus includes a substantial body of material, contemporary translations of the New Testament gospels, audio recorded, transcribed and glossed texts, and elicited material collected with a range of speakers. The analysis includes comparisons with other Malakula languages and is both of typological and historical comparative interest. The data documentation is substantial and detailed.

Grass Roots Scott Hennen, Jim Denney, 2011-07-05 Would you like to do your part in saving America? *Grass Roots* is a no-nonsense instruction manual that explains exactly what you can do. Scott Hennen, host and founder of the innovative Common

Sense Club radio program shows how everyday Americans just like you are making a difference for our country's future This down to earth handbook gives you clear practical effective actions you can take to preserve the American dream for your children and grandchildren President Ronald Reagan once said All great change in America begins at the dinner table Today most Americans struggle just to keep food on the dinner table We are staggering under a crushing burden of big government out of control spending and towering federal debt We have become tax slaves and the people we sent to Washington to represent us are the very ones who sold us there We're angry and rightly so But ruling class politicians have shrugged off our grassroots anger calling it Astroturf We're tired of being ignored patronized and lied to by the very people who are supposed to be our public servants Not since the original Boston Tea Party of 1773 have so many everyday Americans participated in such a significant display of righteous indignation and freedom loving patriotism For the first time in generations ordinary hardworking church going Americans are carrying signs gathering in large numbers and making their voices heard Big government beware A sleeping giant has awakened Scott Hennen has drawn up a practical blueprint for change a handbook for all of us who are ready to roll up our sleeves and do our part to restore America's goodness and greatness Grass Roots is a political manifesto for every American who loves liberty and cares enough to get involved

The Morphology and Phonology of Exponence Jochen Trommer, 2012-09-27 Exponence refers to the mapping of morphosyntactic structure to phonological representations a research area which is not only highly controversial but also approached in fundamentally different ways in theoretical morphology and phonology This volume brings together leading specialists from morphosyntax and morphophonology The authors address common problems questions and solutions in both areas and formulate a coherent research program for exponence which integrates the central insights of the last decades and provides important new challenges for the future The book is aimed at phonologists morphologists and syntacticians of all theoretical persuasions at graduate level and above

A Grammar of Atong Seino van Breugel, 2014-01-30 Atong is a Tibeto Burman language spoken in Northeast India and Bangladesh Seino van Breugel provides a deep and thorough coverage and analysis of all major areas of the grammar which makes this book of great interest and value to general linguists and typologists as well as area specialists Alongside an Atong English dictionary and five fully glossed Atong texts recorded during extensive fieldwork this work also provides a sizable ethnolinguistic introduction to the speakers and their culture Of particular interest is the pragmatic approach taken for the grammatical analysis Whereas the form of an utterance provides some clue as to its possible meaning inference is always needed to arrive at the most relevant interpretation within the context in which the utterance occurs This is a very important book for South Asian and Sino Tibetan linguistic scholarship Of the 200 languages of Northeast India only a handful have been documented the present work brings the number of full scale modern grammars for these languages to six Thus it represents a unique and extremely valuable contribution Professor Scott DeLancey University of Oregon This is a solid academic work which makes a huge contribution to the field There is no other

detailed account of this particular language and it is highly doubtful that anyone will write something more comprehensive in the future Dr Willem de Reuse University of North Texas

The Law and the Prophets Stephen B. Chapman, 2000 The standard theory of Old Testament canon formation describes a literary process of linear development in three successive stages In spite of intermittent criticism the theory has continued to find its place in textbooks and introductions Here Stephen B Chapman marshals all of the important counter arguments to the theory and proposes a fresh way to conceive of the canonical process based upon evidence internal and external to the biblical text He argues against the standard theory by exposing its internal inconsistencies and critiquing its methodological presuppositions especially its assumptions about human agency and the nature of canonization Using Charles Altieri's literary application of Canadian philosopher Charles Taylor's theory of the self the author redescribes the canonization of the Old Testament as a process of strong evaluation whose goal was to provide a religious framework for the evaluation of personal and communal alternatives rather than the imposition of ideology He redefines the Old Testament canon as the theological grammar formed by the coordination of discrete scriptures into a coherent collection but retaining their plurality as integral to canonicity Stephen B Chapman also demonstrates that the status of the prophetic writings prior to their canonization has remained an intractable problem for the standard theory He shows how nomistic assumptions about canonization have sustained the view that the prophetic corpus was always subordinate to the Pentateuch even though this view is at odds with the exegetical evidence By detailed analysis of canon conscious editing within the Pentateuch and the prophetic corpus he illustrates how collections of Law and Prophets developed simultaneously and mutually influenced each other
