*Reviewing the Success of Full-Service Community Schools in the US* Mavis G. Sanders, Claudia Galindo, 2020-03-05  
Originally published as a special issue of the Journal of Education for Students Placed at Risk this expanded text provides new insights into the successful sustained implementation of Full Service Community Schools FSCSs in the United States. *Reviewing the Success of Full Service Community Schools in the US* documents the experiences of students teachers and communities involved in the establishment and growth of FSCSs. By considering how successful this reform strategy has been in meeting the needs of underserved communities the text illustrates the potential these schools have to transform students learning and outcomes. In particular the studies illustrate the value these schools have in supporting low income students and students of color. At the same time by interrogating the defining pillars of FSCSs expanded learning opportunities integrated services family and community engagement and collaborative leadership chapters identify challenges that if left unattended could limit the transformative potential of this reform strategy. This groundbreaking text will be of great interest to graduate and postgraduate students researchers academics professionals and policy makers in the fields of Educational Change and School Reform Multicultural Education Sociology of Education Education Policy and School Management and Administration.

**Pedagogical Content Knowledge in STEM** Stephen Miles Uzzo, Sherryl Browne Graves, Erin Shay, Marisa Harford, Robert Thompson, 2018-10-25 This volume represents both recent research in pedagogical content knowledge PCK in science technology engineering and math STEM as well as emerging innovations in how PCK is applied in practice. The notion of research to practice is critical to validating how effectively PCK works within the clinic and how it can be used to improve STEM learning. As the need for more effective educational approaches in STEM grows the importance of developing identifying and validating effective practices and practitioner competencies are needed. This book covers a wide range of topics in PCK in different school levels middle school college teacher training teacher professional development and different environments museums rural. The contributors believe that vital to successful STEM education practice is recognition that STEM domains require both specialized domain knowledge as well as specialized pedagogical approaches. The authors of this work were chosen because of their extensive fieldwork in PCK research and practice making this volume valuable to furthering how PCK is used to enlighten the understanding of learning as well as providing practical instruction. This text helps STEM practitioners researchers and decision makers further their interest in more effective STEM education practice and raises new questions about STEM learning.
