Schecter, Robert J. Bayley, 2005-04-11 Language as Cultural Practice Mexicanos en el Norte offers a vivid ethnographic account of language socialization practices within Mexican background families residing in California and Texas This account illustrates a variety of cases where language is used by speakers to choose between alternative self definitions and where language interacts differentially with other defining categories such as ethnicity gender and class It shows that language socialization instantiated in language choices and patterns of use in sociocultural and sociohistorical contexts characterized by ambiguity and flux is both a dynamic and a fluid process The study emphasizes the links between familial patterns of language use and language socialization practices on the one hand and children s development of bilingual and biliterate identities on the other Using a framework emerging from their selection of two geographically distinct localities with differing demographic features Schecter and Bayley compare patterns of meaning suggested by the use of Spanish and English in speech and literacy activities as well as by the symbolic

importance ascribed by families and societal institutions such as schools to the maintenance and use of the two languages

Language as Cultural Practice provides a detailed account of the diversity of language practices and patterns of use in language minority homes offers educators detailed information on the language ecology of Latino homes in two geographically diverse communities San Antonio Texas and the San Francisco Bay Area California shows the diversity within Mexican American communities in the United States families profiled range from rural families in south Texas to upper middle class professional families in northern California provides data to correct the prevalent misconception that maintenance of Spanish interferes with the acquisition of English and contributes to the study of language socialization by showing that the process extends throughout the lifetime and that it is an interactive rather than a one way process This book will particularly interest researchers and professionals in linguistics anthropology applied linguistics and education and will be useful as a text in graduate courses in these areas that address language socialization and learning
