Sexual Harassment in the Workplace: Law & Practice, 5th Edition Conte, 2019-11-13 Sexual Harassment in the Workplace Law and Practice

Sex Offenders: Punish, Help, Change or Control? Jo Brayford, Francis Cowe, John Deering, 2013-05-07 Sex offending and in particular child sex offending is a complex area for policy makers theorists and practitioners A focus on punishment has reinforced sex offending as a problem that is essentially other to society and discourages engagement with the real scale and scope of sexual offending in the UK This book looks at the growth of work with sex offenders questioning assumptions about the range and types of such offenders and what effective responses to these might be Divided into four sections this book sets out the growth of a broad

legislative context and the emergence of child sexual offenders in criminal justice policy and practice It goes on to consider a range of offences and victim typologies arguing that work with offenders and victims is complex and can provide a rich source of theoretical and practical knowledge that should be utilised more fully by both policy makers and practitioners It includes work on female sex offenders electronic monitoring and animal abuse as well as exploring interventions with sex offenders in three different contexts prisons communities and hostels Bringing together academic practice and policy experts the book argues that a clear but complex theoretical and policy approach is required if the risk of re offending and further victimisation is to be reduced Ultimately this book questions whether it makes sense to locate responsibility for responding to sexual offending solely within the criminal justice domain Municipal Liability: Law and Practice, 4th Edition Fontana,2018-11-14 **Municipal Liability Law and Practice Fourth Edition** **Decisions** California. Barhydt,1966 **Prison Vocational Education and Policy in the United States** Andrew J Dick,William Rich,Tony Waters,2016-08-05 This book explores California s prison system in the context of vocational education reform For prisons in the early twenty first century ideologies of evidence based management meant that reform efforts to change the purpose of prisons from punishment to rehabilitation through vocational education required evidence to justify policy prescriptions Yet who determines what constitutes evidence In political environments solutions are typically pre conceived which means that the nature of the evidence collected is also preconceived As a result key assumptions about outcomes are often wished away to show improvement and be accountable Through a detailed analysis interspersed with stories from the authors experiences behind the wall among California s prison population the authors challenge the nature of evidence based research as used in the prison environment In the process they describe the thorny problems facing reformers Legislative Summary California. In Her Hands Dr. Emma Day,2023-08-01 In Her Hands examines the various strategies women have utilized to fight for recognition as individuals vulnerable to and living with HIV AIDS across multiple settings since the 1980s Taking a new chronological and thematic approach to the study of the US epidemic it explores five arenas of women s AIDS activism transmission and recognition reproductive justice safer sex campaigns for queer women the carceral state and HIV prevention and treatment In so doing it moves the historical understanding of women s experiences of AIDS beyond their exclusion from the initial medical response and the role women played as the supporters of gay men Asking how and on what terms women succeeded in securing state support In Her Hands argues that women protesting the neglect of their health care needs always risked encountering punitive intervention on behalf of the symbolic needs of fetuses and children as well as wider society deemed to need protecting from them
