Flying Magazine ,1988-05 *The Accessory and Garage Journal* ,1921 *Company of Voices* George Guiver,2008-08-01 A new and updated edition of a much praised work this is vital reading for anyone who wishes to understand the nature of prayer Down to earth and accessible yet applauded for its scholarship it is as reviewers said of the first edition truly exciting to read and full of help and sympathy for the Christian who finds prayer difficult *Company of Voices* begins with a problem that is all too recognizable If all that Christianity claims about life and living is true then prayer ought to be the most natural activity in the world Yet apart from moments of crisis when prayer arises spontaneously it is mostly an added extra to the business of daily living something that is a struggle to find time for George Guiver CR sets out to find why this should be so His search takes him to study the practice of daily prayer throughout the church s history the offering of prayer several times a day in churches cathedrals and monasteries and individuals at their private prayer He

considers the form and content of prayers handed down over the centuries prayer and human nature our understanding of the church the varying formulas of prayer in different spiritual traditions symbolism and gesture prayer as work and play wordless prayer and much more all with the aim of learning from the past for the needs of today Truly breathtaking in its scope this important study deserves its reputation as a contemporary spiritual classic The Time of the Generals Frederick M. Nunn,1992-01-01 The quarter century from 1964 to 1989 was the time of the generals the most clearly defined era of military rule and influence in the history of Latin America The effects of this rule were most evident in Argentina Brazil Peru and Chile where French and German style military professionalism developed into professional militarism Frederick M Nunn shows that the mentality of Latin American generals is typical of a worldwide military ethos but that its application is unique in the context of individual countries In detailing the pervasiveness of this ethos worldwide Nunn enables a better understanding of the willingness of Latin American military leaders to intervene in government and of their activities once in power **Popular Science** ,1981-07 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
