QuickStudy ACADEMIC — Pre-Calculus — Equations & Answers

FUNCTIONS & THEIR GRAPHS

Definitions:
- A **function** is a relation in which each element of the domain is paired with only one element of the range.
- In most cases, x is the independent variable and y or $f(x)$ is the dependent variable.

- A function can be identified using the **vertical line test**. If a vertical line passes through the graph of the function in more than one point, the graph is not a function.
- A function can be represented by an equation in terms of x and y or with function notation: $y = 7x - 11$ or $f(x) = 7x - 11$.
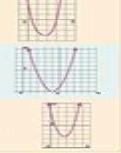

Linear Functions
A function whose graph is a non-vertical line or part of a non-vertical line. There are 3 forms of linear equations: slope-intercept, point-slope, and standard form.

- **Slope-intercept form:** $y = mx + b$, where m is the slope and b is the y-intercept of the line.
  EX: If a line has a slope of 3 and y-intercept of 5, the equation is $y = 3x + 5$.
- **Point-slope form:** $y - y_1 = m(x - x_1)$, where m is the slope and (x_1, y_1) is a point on the line.
  EX: If a line has a slope of -2 and contains the point $(6, -4)$, the equation is $y - (-4) = -2(x - 6)$ or $y + 4 = -2(x - 6)$.
- **Standard form:** $Ax + By = C$, where A, B, and C are integers and A is positive. The slope is $-\frac{A}{B}$ and the y-intercept is $\frac{C}{B}$. This form of a line is most often used to find intercepts by plugging 0 in for x and y separately and solving.
  EX: Given the line $3x - 2y = 4$, the slope is $-\frac{3}{2}$ and the y-intercept is 2. The intercepts can also be found by substitution:
  x-intercept (plug in 0 for y):
  $3x - 2y = 4$ $3x - 2(0) = 4$ $3x = 4$ $x = \frac{4}{3}$
  y-intercept (plug in 0 for x):
  $3x - 2y = 4$ $3(0) - 2y = 4$ $-2y = 4$ $y = -2$

Polynomial Functions
A function is a **polynomial function** if it can be written in the form
$$f(x) = ax^n + bx^{n-1} + cx^{n-2} + \dots + dx + e.$$
- The greatest power of a polynomial with one variable is called its **degree**.
  - When the degree of the function is odd, there is at least one real zero; when the degree is even, there may be no real zeros.
  - Both types can have imaginary roots of the form $a + bi$.
  EX: $f(x) = 2x^3 + 3x^2 - x + 4$ has a degree of 3, one real zero at $x = -2.1604$, and two non-real roots.

Quadratic Functions
Written in the form $f(x) = ax^2 + bx + c$, where $a \neq 0$
- The **axis of symmetry** is the vertical line with equation $x = -\frac{b}{2a}$.
- The y-intercept is c.
- Quadratic functions can be written in **vertex form:** $f(x) = a(x - h)^2 + k$, where (h, k) is the vertex of a parabola that opens up when $a > 0$ and opens down when $a < 0$.
- Quadratic functions can have none, one, or two real-number solutions.
- The graph is a parabola; if the parabola opens left or right — it is not a function.
- The **vertex** is the **critical point** where the graph changes from increasing to decreasing or decreasing to increasing.

Methods for Finding Roots

Equation	Method	Justification	Solution
$x^2 - 9 = 0$	Square Roots	There is no x-term.	$x^2 - 9 = 0$ $x^2 = 9$ $x = 3$ or -3
$x^2 + 2x - 8 = 0$	Factoring	8 has only a few factors to check.	$x^2 + 2x - 8 = 0$ $(x + 4)(x - 2) = 0$ $x = -4$ or 2
$2x^2 + 5x - 9 = 0$	Quadratic Formula	The equation cannot be factored.	$x = \dfrac{-5 \pm \sqrt{5^2 - 4(2)(-9)}}{2(2)}$ $x = \dfrac{-5 \pm \sqrt{97}}{4}$
$x^2 - 8x + 3 = 0$	Completing the Square or Quadratic Formula	The coefficient of the x^2-term is 1 but the equation cannot be factored.	$x^2 - 8x + 3 = 0$ $x^2 - 8x = -3$ $x^2 - 8x + 16 = -3 + 16$ $x^2 - 8x + 16 = 13$ $(x - 4)^2 = 13$ $x - 4 = \pm\sqrt{13}$ $x = 4 \pm \sqrt{13}$

The **discriminant** is the expression under the radical in the Quadratic Formula and can be used to determine the number of real solutions.

Discriminant: $b^2 - 4ac > 0$
EX: $2x^2 - 7x + 3 = 0$
The discriminant is $(-7)^2 - 4(2)(3) = 25$, which is positive.
There are two real number solutions.

Discriminant: $b^2 - 4ac = 0$
EX: $x^2 - 8x + 16 = 0$
The discriminant is $(-8)^2 - 4(1)(16) = 0$.
There is one real number solution.

Discriminant: $b^2 - 4ac < 0$
EX: $2x^2 - 7x + 8 = 0$
The discriminant is $(-7)^2 - 4(2)(8) = -15$, which is negative.
There are no real number solutions.

Rational Functions
A **rational function** is an equation of the form $f(x) = \frac{p(x)}{q(x)}$, where $p(x)$ and $q(x)$ are polynomial functions and $q(x) \neq 0$.
- Rational functions may have breaks in continuity that appear in the graph as vertical asymptotes or point discontinuities that appear as holes.
- Vertical asymptotes occur where a rational function is undefined.
- Point discontinuities occur where there is a common factor in the numerator and denominator.

To multiply: First multiply the numerators, then multiply the denominators.

$$\frac{8x^2 - 8}{3x + 15} \cdot \frac{5x + 5}{2x - 2}$$
$$= \frac{8(x^2 - 1)(5)(x + 1)}{3(x + 5)(2)(x - 1)}$$
$$= \frac{4(x-1)(x+1)}{3(x+5)} \cdot \frac{5(x+1)}{(x-1)}$$

To divide: Multiply by the multiplicative inverse (reciprocal) of the divisor.

$$\frac{x^2 + 3x - 10}{x^2 + 3x + 2} \div \frac{5x + 3}{3x - 3}$$
$$= \frac{x^2 + 3x - 10}{x^2 + 3x + 2} \cdot \frac{3x - 3}{5x + 3}$$
$$= \frac{(x+5)(x-2)}{(x+2)(x+1)} \cdot \frac{3(x-1)}{5x+3}$$

⚠ Order is important for division.

To add and subtract: There must be a common denominator. To find it for rational expressions with polynomials in the denominator, factor first to determine common factors.

Adding:
$$\frac{5}{x^2 - x - 20} + \frac{7}{2x - 10}$$
$$= \frac{5}{(x+4)(x-5)} + \frac{7}{2(x-5)}$$

Using one of each factor, the LCM is $2(x + 4)(x - 5)$.
Multiply each fraction's numerator and denominator by the factors missing from the LCM.
$$= \frac{5}{(x+4)(x-5)} \cdot \frac{2}{2} + \frac{7}{2(x-5)} \cdot \frac{(x+4)}{(x+4)}$$
$$= \frac{10}{2(x+4)(x-5)} + \frac{7x + 28}{2(x-5)(x+4)}$$
$$= \frac{7x + 38}{2(x-5)(x+4)}$$

Hint: The common denominator is the LCM (least common multiple) of the denominators.

⚠ The subtraction sign must be distributed to each part of the numerator of the second fraction.

Subtracting:
$$\frac{h - 4}{h^2 + 3h - 10} - \frac{h - 2}{h^2 - 20}$$
$$= \frac{h - 4}{(h-2)(h+5)} - \frac{h - 2}{(h-4)(h+5)}$$

Using one of each factor, the LCM is $(h - 2)(h + 5)(h - 4)$.
Multiply each fraction's numerator and denominator by the factors missing from the LCM.
$$= \frac{h - 4}{(h-2)(h+5)} \cdot \frac{h - 4}{h - 4} - \frac{h - 2}{(h-4)(h+5)} \cdot \frac{h - 2}{h - 2}$$
$$= \frac{h^2 - 8h + 16}{(h-5)(h-2)(h-4)} - \frac{h^2 - 4}{(h-4)(h+5)(h-2)}$$
$$= \frac{-8h + 20}{(h-5)(h-2)(h-4)}$$

Pre Calculus Sixth Edition Answers Introduction

In todays digital age, the availability of Pre Calculus Sixth Edition Answers books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Pre Calculus Sixth Edition Answers books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Pre Calculus Sixth Edition Answers books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Pre Calculus Sixth Edition Answers versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Pre Calculus Sixth Edition Answers books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Pre Calculus Sixth Edition Answers books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Pre Calculus Sixth Edition Answers books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare,

which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Pre Calculus Sixth Edition Answers books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Pre Calculus Sixth Edition Answers books and manuals for download and embark on your journey of knowledge?

FAQs About Pre Calculus Sixth Edition Answers Books

1. Where can I buy Pre Calculus Sixth Edition Answers books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Pre Calculus Sixth Edition Answers book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Pre Calculus Sixth Edition Answers books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Pre Calculus Sixth Edition Answers audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Pre Calculus Sixth Edition Answers books for free? Public Domain Books: Many classic books are available for free as theyre in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
