Benchmark(s) Addressed in Lesson	M.4.2; M.4.3; M.4.25; M.4.28; M. 4.34; M.4.35
Materials • Information handout • Sample problems (two handouts) based on math concepts in real life settings (answer keys provided) • Scrap paper • Pencils	
Activities <u>Step 1</u> Introduce students to the concept of reading word problems for meaning. Distribute handout #1 with information on keywords for the four basic math operations plus the five step word problem solving process. <u>Step 2</u> Using handout #2 (sample word problems, go over locating key words and key information to solve the five problems presented.) Do these problems on the board. <u>Step 3</u> Distribute handout #3 and ask the students to solve the problems independently (Handout #3 has sample questions based on the). Once students have completed the problems go over the answer orally.	
Assessment/Evidence Handout #2 and #3 contain math practice problems to assess students' understanding of solving math problems based on real life settings.	
Adaptations for Beginning Students Beginning students may need to go over the information contained in handout #1 on keywords for solving the four basic math operations. Instructors may need to present examples of practice problems on the board. Beginning students may need to check their work with calculator.	
Adaptations for Advanced Students Advanced students should be doing the practice problems from handout #2 and #3 with speed and accuracy. These students should not need to use a calculator to complete the problems.

Ainley,Margaret Batten,Hilary Miller,1984 This monograph reports on a study of differences between school in retention rates in the government high schools of Victoria It involves analysis of official data for all high schools and both qualitative and quantitative studies in a sample of 16 schools The study suggests that curriculum and organisational features of schools can effect retention rates beyond the influence of the environment in which the school is located Youth Unemployment and the Youth Contract Great Britain: Parliament: House of Commons: Work and Pensions Committee,2012-09-19 This report comments positively on some aspects of the design of the Youth Contract It builds on the types of interventions which have been shown to have a positive impact increased Jobcentre Plus JCP adviser support work experience placements and apprenticeships It also welcomes the inclusion of a new scheme for 16 17 year olds the large majority of whom do not receive support from JCP as they are ineligible for Jobseekers Allowance JSA The Committee acknowledges that the Government has sensibly focused wage incentives the key

new element of the Youth Contract on longer term young unemployed claimants and there is an attempt to achieve sustainable job outcomes by linking wage incentives to the Work Programme payment structure in which providers are financially incentivised to keep participants in work and off benefits in the longer term However the Youth Contract on its own it will not be enough to address the current unacceptably high level of youth unemployment A significant impact can only be made if all the targets are met In particular past experience shows that 160 000 wage incentives is a very ambitious target in the current economic climate And 250 000 additional work experience placements for young people may also be unrealistic
