created a few years or decades ago by some professor in a testing lab The Paleo diet was a result of humans fight for survival it was what our ancestors used to eat 10 000 years ago right around the time when there were no grocery stores super markets and fast food Eating wasn't something to do in free time to eat one had to search for his/her food hunt it down and cook it in on whatever was available Thus Paleo is not just a diet it's a lifestyle one which will truly make your life healthier The Paleo diet was just revived and popularized in the 70s by a Gastroenterologist Walter L Voegtlin This led to one research paper after another one book after another being published by several doctors and nutritionists By the 90s the Paleo diet had made its mark on the dieting market and had started to shape the dieting landscape Practitioners started to create derivatives of the diet synthesizing the pure Paleo meals by adding extra ingredients In this book I will only be using pure Paleo meals as a guide to a better life This book is written keeping in mind the physical side of a healthier lifestyle You'll see how athletes can benefit from the Paleo diet be it swimmers wrestlers runners or players of any game The claims will be backed by scientific evidence and you'll see progress within weeks
