This jargon-free resource explains the who, what, why, and where of contemporary personal finance in simple, easy-to-grasp language, covering the key people, events, terms, tools, policies, and products that make up modern money management. The ideal roadmap to 21st-century financial literacy, this layman's encyclopedia discusses ideas, concepts, events, and people that inform money management and personal finance. It explains the intricacies of things like investing, saving, debt, credit, and mortgages and it drills down into complexities like the difference between 401(k) and 403(b) retirement plans. Entries invite the reader to explore common financial topics such as seeking credit counseling, using credit cards, buying a home, and choosing insurance. Issues such as identity theft, derivatives, and taxes are explored as well. The unique work is topically organized with contributions from both academics and financial professionals. Entries are augmented by entertaining sidebar anecdotes and a glossary, and there is a useful feature that connects readers to online sources enabling them to keep up with this fast-changing field. A one-stop resource ideal for individuals seeking to understand personal finance, this book will also prove valuable to students taking

courses in finance and economics All readers will come away better equipped to profit from money management and more skilled at making smart financial decisions Personal Finance Courtland L. Bovée, John V. Thill, Michael H.

Fixed John Y. Campbell, Tarun Ramadorai, 2025-10-21 Two leading economists reveal why today s personal finance markets are rigged against us and offer practical steps to fix them We

interact with the financial system every day whether taking out or paying off loans making insurance claims or simply depositing money into our bank accounts Fixed exposes how this system has been corrupted to serve the interests of financial services providers and their cleverest customers at the expense of ordinary people John Campbell and Tarun Ramadorai diagnose the ills of today's personal finance markets in the United States and across the globe looking at everything from short term saving and borrowing to loans for education and housing financial products for retirement and insurance They show how the system is fixed to benefit those who are wealthy and more educated while encouraging financial mistakes by those who are not making it difficult for regular consumers to make sound financial decisions and disadvantaging them in some of the most consequential economic transactions of their lives Campbell and Ramadorai describe how some even opt out of the financial system altogether relying on unregulated and often shady mechanisms to implement necessary financial functions with dire consequences for individuals families and the economy more broadly With the explosive growth of the global middle class longer lifespans and greater numbers of seniors managing their money alone the pitfalls of personal finance now affect billions of people around the world Fixed proposes concrete solutions that harness the expertise of economists the power of government and the speed of technology to restore fairness and trust in our broken system and make it work better for ordinary people
