

Remembering an Event Essay: Examples and Guidelines

some examples and guidelines for writing an essay about a memorable event:

1. Start with an attention-grabbing introduction that sets the scene for the event. This could be a quote, a question, or a statement that encapsulates the overall theme of the event.
2. Provide background information about the event, including when and where it took place, and what led up to it.
3. Describe the event in detail, including your emotions and thoughts at the time. Use descriptive language to help the reader envision the scene.
4. Reflect on the event and its significance. What did you learn from it? How has it changed you?
5. Conclude with a powerful statement that ties everything together and leaves a lasting impression on the reader.

Wertsch, 2002-07-15 There is currently a great deal of discussion in the humanities and social sciences about collective memory but there is very little agreement on what it is The first goal of this volume is to review various understandings of this term to bring some coherence to the discussion Drawing on this review James V Wertsch goes on to outline a particular version of collective remembering grounded in the use of textual resources especially narratives This takes him into the special properties of narrative that shape this process and into the issues of how these textual resources are produced and consumed Wertsch brings these general ideas to life by examining the rapid massive transformation of collective memory during the transition from Soviet to post Soviet Russia **Cognitive Feelings** Jérôme Dokic, 2025-11-18 This book proposes

a comprehensive theory of cognitive feelings also referred to as noetic epistemic or metacognitive feelings There are pivotal moments in our mental lives when even before we have explicitly thought or reflected on the matter we become aware of our own epistemic relationship with the world and the extent to which we can exert control over it The book analyses these moments and the subjective experiences involved which can be fleeting or more lasting These experiences are cognitive feelings such as feelings of familiarity knowing confidence rightness understanding certainty presence and reality and on the negative side feelings of unfamiliarity or strangeness not knowing wrongness perplexity doubt uncertainty absence and unreality Some cognitive feelings have evocative names such as the tip of the tongue experience the aha moment or the eureka effect The set of cognitive feelings has fuzzy boundaries and shares similarities with other experiences such as surprise curiosity and interest but also with intuitions hunches or presentiments The book puts forward a unified account of cognitive feelings as genuine affective experiences that play a constitutive role in the geography and economy of the mind at the interfaces between perception memory imagination belief and action Like ordinary emotions cognitive feelings have both an evaluative and a motivational dimension Specifically they are based on monitoring features of our epistemic situation and generate action tendencies aimed at improving it The book also presents detailed applications of this account to two main types of cognitive feelings namely feelings of reality and familiarity It examines the role of these feelings in various domains such as virtual reality aesthetic experiences and self transcendent experiences i e experiences in which the apparent boundaries between the self and the external world are altered The methodology is philosophical analysis informed by empirical studies in cognitive science **Affect and Accuracy in Recall** Eugene Winograd, Ulric Neisser, 1992-10-30

Recollections of unexpected and emotional events called flashbulb memories have long been the subject of theoretical speculation Previous meetings have brought together everyone who has done research on memories of the Challenger explosion in order to gain a better understanding of the phenomenon of flashbulb memories How do flashbulb memories compare with other kinds of recollections Are they unusually accurate or especially long lived Do they reflect the activity of a

special mechanism as has been suggested Although Affect and Accuracy in Recall focuses on flashbulb memories it addresses more general issues of affect and accuracy Do emotion and arousal strengthen memory If so under what conditions By what physiological mechanisms This 1993 volume is evidence of progress made in memory research since Brown and Kulick s 1977 paper
