

Object-Oriented Application Frameworks

- Much of the cost and effort stems from the continuous **re-discovery** and **re-invention** of core concepts and components across the software industry
- Object-oriented (OO) application frameworks are a promising technology for reifying proven software designs and implementations in order to **reduce the cost and improve the quality of software**
- A framework is a **reusable, "semi-complete"** application that can be specialized to **produce custom applications**
