Focus On: 100 Most Popular Sedans Wikipedia contributors, *Fichas de Mantenimiento D*, 2005 The North American Auto Industry since NAFTA Greig Mordue, Dimitry Anastakis, 2024-10-01 The auto sector is North America's most iconic of industries. Since the North American Free Trade Agreement came into existence in 1994, the sector has undergone tremendous change, escalating concerns around climate change, advances in electric and automated vehicles, deindustrialization, reindustrialization, and the rise of low-cost locations as hubs for manufacturing. The North American Auto Industry since NAFTA examines the issues that have preoccupied the development of policy associated with the manufacture of automobiles in North America. The collection addresses the punctuations that have afflicted the industry since NAFTA's implementation, as well as the slower incremental evolutions that have also occurred. Several aspects of automobility and the industry are explored, including but not limited to the Canadian, American, and Mexican automotive sectors and their evolution and interaction under evolving trade regimes. The book analyses issues surrounding labour, technology, trade policy, regional development, the environment, and broader societal impacts of the automobile. It also draws on the expertise of a wide cross-section of industry experts and scholars to provide readers with a deeper understanding of the automotive industry and its central role in North America's economic, business, and political landscape. Get Ready for ICT Anna Barker, Martin Bailey, 2003-09 Focusing on providing pupils with ICT skills, this teaching package comprises a networkable CD Rom with photocopiable printed resources. Jacobs, 2023-08-24 This volume chronicles the maturation of the South Korean auto industry and its native automakers from the 1997 Asian Crisis to 2019. After examining the context for domestic vehicle production in South Korea, the author presents multiple case studies for all five Korean automakers: General Motors Korea, Daewoo Motors, Kia, Hyundai, Ssangyong, and Renault Samsung. This includes coverage of Hyundai/Kia's foreign plants in North America, Europe, India, China, and Emerging Asia. The book closes by assessing the five to ten-year future outlooks for Korean automakers at home and abroad. This important work will prove informative to scholars of business management, automotive history, international development, Asian studies, and public administration. **The Complete Book of the World Rally Championship** Henry Hope-Frost, John Davenport, 2004 For 30 years, some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship.
