Minority Students in American Schools H. D. Adamson, 2005-03-23 This book addresses questions of language education in the United States focusing on how to teach the 3 5 million students in American public schools who do not speak English as a native language These students are at the center of a national debate about the right relationship among ESL bilingual and mainstream classes Bilingual education has been banned by constitutional amendment in California and Arizona and similar amendments are being considered in other states Language Minority Students in American Schools An Education in English places this debate and related issues of teaching standard English to speakers of nonstandard dialects such as black English within the larger context of language acquisition theory and current methods of language teaching Adamson draws from the large body of sociolinguistic psycholinguistic and educational research and on his own experience as an English teacher in the U S and overseas to shed light on some of these controversies and on the cognitive cultural public policy and practical issues involved in educating English language learners Presenting all sides of the issues fairly he offers a strong endorsement for bilingual and bidialectal education based on programs designed and administered according to the
