Religion And The Environment:

Religion and the Environment Susan Power Bratton, 2020-12-30 How does religion relate to our global environment Religion and the Environment provides a comprehensive and accessible introduction to this controversial question by covering the following important themes the religion environment interface pre and post industrial religious practices related to resource extraction and the rise of the Anthropocene an analysis of religious response to the impacts of contemporary industrialization globalization and urbanization religious thought leadership policy formation and grassroots activism relative to the environment Religion and the Environment will offer students and general readers a sophisticated yet accessible exploration of the relationship between religion and the environment through case studies ranging from climate change to the impacts of warfare This engaging book will be an excellent addition to introductory courses and those approaching the topic for the first time

Religion and the Environment Roger S. Gottlieb, 2010 In the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed Interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals Clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings Theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature In the realm of institutional commitment public statements and actions by organized religions have grown dramatically In the context of political action throughout the U S and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience This collection serves as a comprehensive introduction overview and in depth account of these exciting new developments The four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded

Religion and the Environment R. Tanner, C. Mitchell, 2016-06-03 This book is an analysis of the whole frontier between religion and the environment It deals in turn with their interactions and the effects of each on the other in the major world religions It considers the religious impact on human uses of time space materials transport and foods and the environmental effects of religious influence on major topics such as population pressures

morbidity mortality marital arrangements contraception the treatment of animals and environmental management *Faith in Conservation* Martin Palmer, Victoria Finlay, 2003-01-01 This book arising from over twenty years experience of working with the world's major faiths draws extensively upon joint World Bank and ARC Alliance of Religion and Conservation WWF World Wildlife Fund for Nature projects world wide It shows through stories land management myths investment policies legends advocacy and celebration the role the major faiths have done and can play in making the world a better place The major faiths are the oldest institutions in the world and have survived essentially because they are constantly evolving and changing There is much to be learnt by newer institutions such as the World Bank and the multitudes of NGOs about how to remain true to what you believe but change and grow as you develop The book explores issues of climate change forestry asset management education and biodiversity protection and does so using the techniques of the great faiths storytelling example and celebration It reveals a variety of world views and it asks us to see that our personal view may be just one amongst many The challenge of living with integrity in a pluralist world underlies the book and it offers models of how diversity is crucial in attempting to ensure we have a sustainable world **Religion and the Environment: Connections: science, ethics, eco-feminism, consumerism, sustainability and spirituality** Roger S. Gottlieb, 2010 In the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed Interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals Clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings Theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature In the realm of institutional commitment public statements and actions by organized religions have grown dramatically In the context of political action throughout the U S and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience This collection serves as a comprehensive introduction overview and in depth account of these exciting new developments The four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded Faiths in Green Lukas Szrot, 2021-05-03 Faiths in Green addresses the complex and

fraught relationship between religious identity and environmental concern in the United States particularly how that relationship has changed over time Examining the effects of religious upbringing belonging and disaffiliation on environmental concern across multiple religious groups over several decades the author shows where when how and why religious groups and their memberships have responded constructively to environmental change over time The author also visits the effects of gender social class race and politics on both religion and environmental concern in the U S Faiths in Green offers an in depth and accessible guide to understanding the at times incongruous relationship between religious beliefs and motivations as well as ways to follow cultural shifts that both drive and are driven by religious persons and institutions In examining how religious and cultural factors are linked to environmental concern over time Faiths in Green demonstrates the importance of morality and worldviews in confronting global hazards of unprecedented scale

Religion and Dangerous Environmental Change Dieter Gerten, 2010 Given the increasing threats of environmental changes to human societies it is imperative to complement technological and economical problem solutions with alternative perspectives from the humanities and the arts This pioneering book attempts to advance climate and environmental sciences by including religion as a microcosm of cultural response to environmental change The authors are renowned in disciplines as diverse as hydrology religious studies theology cultural studies philosophy and visual arts They exemplify how religion can contribute to sustainable mitigation of climate change and to creative adaption to its impacts thus preparing for a deep cultivation of research on religion in environmental change

Religion in Environmental and Climate Change Dieter Gerten, Sigurd Bergmann, 2011-11-17 Climate change and other global environmental changes deserve attention by the the humanities they are caused mainly by human attitudes and activities and feed back to human societies Focussing on religion allows for analysis of various human modes of perception action and thought in relation to global environmental change On the one hand religious organizations are aiming to become greener on the other hand some religious ideas and practices display fatalism towards impacts of climate change What might be the fate of different religions in an ever warming world This book gathers recent research on functions of religion in climate change from theological ethical philosophical anthropological historical and earth system analytical perspectives Charting the spread from regional case studies to global scale syntheses the authors demonstrate that world religions and indigenous belief systems are already responding in highly dynamic ways to ongoing and projected climate changes in theory and practice for better or for worse The book establishes the research field religion in climate change and identifies avenues for future research across disciplines

Population, Consumption, and the Environment Harold G. Coward, 1995-01-01 Shows how the major world religions view the environmental problems of over population and excess resource consumption and how they approach possible solutions

Religion and the Environment Gregory Ernest Hitzhusen, 2006 This study examines the empirical studies within the environmental sociology literature to demonstrate the relevance of western Christian and Jewish ecotheology to environmental studies

The Top Books of the Year Religion And The Environment The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. Religion And The Environment : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Religion And The Environment : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Religion And The Environment : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
