## **Remembering The Dead In The Ancient Near East:**

*Remembering the Dead in the Ancient Near East* Benjamin W. Porter, Alexis T. Boutin, 2014-10-15 Remembering the Dead in the Ancient Near East is among the first comprehensive treatments to present the diverse ways in which ancient Near Eastern civilizations memorialized and honored their dead using mortuary rituals human skeletal remains and embodied identities as a window into the memory work of past societies In six case studies teams of researchers with different skillsets osteological analysis faunal analysis culture history and the analysis of written texts and artifact analysis integrate mortuary analysis with bioarchaeological techniques Drawing upon different kinds of data including human remains ceramics jewelry spatial analysis and faunal remains found in burial sites from across the region s societies the authors paint a robust and complex picture of death in the ancient Near East Demonstrating the still underexplored potential of bioarchaeological analysis in ancient societies Remembering the Dead in the Ancient Near East serves as a model for using multiple lines of evidence to reconstruct commemoration practices It will be of great interest to students and scholars of ancient Near Eastern and Egyptian societies the archaeology of death and burial bioarchaeology and human skeletal biology

*Testing the Canon of Ancient Near Eastern Art and Archaeology* Amy Rebecca Gansell, Ann Shafer, 2020 This volume addresses and problematizes the formation and transformation of the ancient Near Eastern art historical and archaeological canon The canon is defined as an established list of objects monuments buildings and sites that are considered to be most representative of the ancient Near East In testing this canon this project takes stock of the current canon its origins endurance and prospects Boundaries and typologies are examined technologies of canon production are investigated and heritage perspectives on contemporary culture offer a key to the future

*Death and Burial within the Ancient Levant (4500-550 BCE)* Jennie Bradbury, 2025-03-28 This book offers a comprehensive survey of burial practices in the ancient Levant and challenges some of the assumptions behind previous attempts to find a normative burial practice Exploring the dazzling variety of ways in which the living deal with the dead this book utilises big data projects and legacy data to highlight the sheer diversity of burial practices in the ancient Levant Theorizing that some types of burial are significantly underrepresented this volume argues for the necessity of analysing both the existing and non existing data at multiple scales of analysis Thus rather than attempting to identify a normative or typical burial the volume highlights the multitude of ways in which the living approached and interacted with the dead across the ancient Levant from the Late Chalcolithic to the Iron Age fifth to first millennia BCE In doing so it acknowledges and foregrounds variability not only in terms of so called atypicality but also in terms of burials and practices that have been mistakenly lumped together in the drive to produce narratives of similarity and normative behaviour This volume also explores some of the broader patterns and temporal spatial shifts that shed light on wider changes in the ways in which humans perceived of the dead and themselves the living over time While predominantly focused on the modern regions of Israel Jordan Lebanon Palestine and Syria this book also engages

with these broader themes across Western Asia and the Mediterranean adopting an interdisciplinary and cross cultural approach to understanding temporal and spatial variability This book is of relevance for students and researchers of Ancient Western Asia as well as those of the archaeology of death and burial *Life and Death* Francesca

Stavrakopoulou,2021-01-28 *Life and Death Social Perspectives on Biblical Bodies* explores some of the social material and ideological dynamics shaping life and death in both the Hebrew Bible and ancient Israel and Judah Analysing topics ranging from the bodily realities of gestation subsistence and death and embodied performances of gender power and status to the imagined realities of post mortem and divine existence the essays in this volume offer exciting new trajectories in our understanding of the ways in which embodiment played out in the societies in which the texts of the Hebrew Bible emerged

**A ^AHistory of Death in the Hebrew Bible** Matthew Suriano,2018-04-02 The meaning of the afterlife in the Hebrew Bible Old Testament is studied through the ideals of a good death beginning with burial customs This book uses burial remains from Iron Age Judah to shed important light on the images of death found in biblical literature **Children in Ancient Israel** Shawn W. Flynn,2018-08-29 Flynn contributes to the emerging field of childhood studies in the Hebrew Bible by isolating stages of a child s life and through a comparative perspective studies the place of children in the domestic cult and their relationship to the deity in that cult The study gathers data relevant to different stages of a child s life from a plethora of Mesopotamian materials prayers myths medical texts rituals and uses that data as an interpretive lens for Israelite texts about children at similar stages such as pre born children the birth stage breast feeding adoption slavery children s death and burial rituals childhood delinquency This analysis presses the questions of value and violence the importance of the domestic cult for expressing the child s value beyond economic value and how children were valued in cultures with high infant mortality rates From the earliest stages to the moments when children die and to the children s responsibilities in the domestic cult later in life this study demonstrates that a child is uniquely wrapped up in the domestic cult and in particular is connected with the deity The domestic cultic value of children forms the much broader understanding of children in the ancient world through which other more problematic representations can be tested Throughout the study it becomes apparent that children s value in the domestic cult is an intentional catalyst for the social promotion of YHWHism Mortuary and Bioarchaeological Perspectives on Bronze Age Arabia Kimberly D. Williams,Lesley A. Gregoricka,2019-05-27 This volume brings together an international consortium of archaeologists and bioarchaeologists at the forefront of mortuary archaeology work across Arabia to examine continuity change in death and remembrance While mortuary archaeology and bioarchaeology contribute important perspectives to the interpretation of life death in ancient Arabia these subdisciplines are rarely brought together in this region and only recently have skeletal remains been recognized as a rich source of scientific data complementing burial context Such joint collaboration highlights the novel interdisciplinary perspective proposed in this volume resulting in a synthesis of new ideas and interpretations that will

undoubtedly guide future archaeological endeavors in Arabia and beyond      **Bioarchaeological Analyses and Bodies**

Pamela K. Stone, 2018-01-16 This volume features bioarchaeological research that interrogates the human skeleton in concert with material culture ethnographic data and archival research This approach provides examples of how these intersections of inquiry can be used to consider the larger social and political contexts in which people lived and the manner in which they died Bioarchaeologists are in a unique position to develop rich interpretations of the lived experiences of skeletonized individuals Using their skills in multiple contexts bioarchaeologists are also situated to consider the ethical nature and inherent humanity of the research collections that have been used because they represent deceased for whom there are records identifying them These collections have been the basis for generating basic information regarding the human skeletal transcript Ironically though these collections themselves have not been studied with the same degree of understanding and interpretation that is applied to archaeological collections      *Human Sacrifice and Value* Matthew J.

Walsh, Sean O'Neill, Marianne Moen, Svein H. Gullbekk, Eva-Johanna Marie Lafuente Nilsson, 2023-10-26 The present volume was made possible by the Norwegian Research Council's generous funding of the Human Sacrifice and Value project FRIPROHUMSAM 275947 This volume explores concepts of human sacrifice focusing on its value or multiplicity of values in relative cultural and temporal terms whether sacrifice is expressed in actual killings in ideas revolving around ritualized sanctioned or sanctified violence or loss or in transformed and often sublimated undertakings Bridging a wide variety of interdisciplinary perspectives it analyses a spectrum of sacrificial logics and actions daring us to rethink the scholarship of sacrifice by considering the oft hidden subliminal and even paradoxical values and motivations that underlie sacrificial acts The chapters give needed attention to pivotal questions in studies of sacrifice and ritualized violence such as how we might employ new approaches to the existing evidence or revise long debated theories about what exactly human sacrifice is or might be or why human sacrifice seems to emerge so often and so easily in human social experience across time and in vastly different cultures and historical contexts Thus the volume will strike a chord with scholars of sociology anthropology archaeology history religious studies political science and economics wherever interest is focused on critically rethinking questions of sacred and sanctified human violence and the values that make it what it is      **Myths and Legends of the**

Carmichael, 2025-08-04 Mesopotamia the land between the rivers lies cradled by the Tigris and Euphrates In the modern world this area encompasses Iraq northeastern Syria southeastern Turkey and southwestern Iran To the ancient mind it was a liminal place where the forces of life and death were ever in tension Fertile soil gave birth to the first great urban civilizations but it was bordered by deserts mountains and marshes that represented the dangerous and unknown The Tigris River with its fast flowing volatile currents was feared and revered as a force of divine energy The Euphrates broader and gentler was a lifeline for irrigation and agriculture Together they deposited the silt that fed barley and wheat creating the

agricultural surplus that allowed cities like Uruk Ur Eridu and Lagash to flourish as early as 4000 BCE Yet both rivers could turn catastrophic flooding with little warning destroying fields homes and lives These unpredictable floods found their echo in the Flood Myth the story of Ziusudra later Utnapishtim surviving the deluge decreed by angry gods
