- E. Details were very important. Greater emphasis on intense religious feeling. They were devotional to art.
- F. Intellectual movement at the heart of the Italian Renaissance that focused on worldly subjects rather than on religious issues. It focused on the individual potential and secularism. They stressed the study of liberal arts: grammar, rhetoric, poetry, ethics, and history. The most important humanists were Erasmus and More.
- G. People looked to the past for models. Humanists turned to ancient classical ideas. Religious reformers were inspired by the bible and early Christian times. The leading theory was the heliocentric theory introduced by Copernicus. Many experts didn't believe the new theory because all scientific knowledge and many religious thinkings were based on arguments developed by classical thinkers. Most experts rejected his heliocentric theory, for if he was right, the whole system of human knowledge might have been called into question. Galileo was one of the famous people during the scientific revolution. He supported Copernicus's heliocentric belief. Another famous thinker was Newton, who proposed that a single force keeps planets in orbit around the sun: gravity.
