

A person in a space suit is sitting on a ledge, looking out over a vast, green-tinted landscape. The landscape features jagged, rocky terrain and a large, glowing planet in the sky. The scene is set in a space environment, with a large, glowing planet visible in the background. The overall color scheme is a monochromatic green, giving it a surreal and atmospheric feel. The person is seen from the side, wearing a full space suit with a backpack and helmet. They are perched on the edge of a structure, possibly a ship or a space station. The ground below is a desolate, rocky expanse with some low-lying vegetation. The sky is a deep green, with a large, bright planet dominating the upper right portion of the frame. The text "OBLIVION'S WAKE" is overlaid in the center of the image in a white, serif font.

## **Oblivion S Wake:**

*The Oblivions of The Cosmos* Cometan, Gomedan, 2019-11-23 *The Oblivions of The Cosmos* is the thirtieth instalment in the Little Blue Book Series and comprises of the forty eighth discourse of the Monodoxy which is itself the first disquisition of the Omnidox, the founding book of Astronism. A haunting single discourse publication constituting over 250 insentations. *The Oblivions of The Cosmos* investigates one of the most ominous and chaotic progenies in *The Cosmos*: black holes. To introduce the discipline of cosmontology known as obliology, this discourse examines all aspects and possibilities regarding the nature, form, purpose, eventualities and physicalities of black holes with implicit connections to the beliefs of Astronism, particularly regarding the tradition of mystery surrounding black holes in Astronist philosophy and religion. The Little Blue Book Series was created and first published by Cometan himself as a way to simplify and commercialise the immensity of the two million word length of the Omnidox into smaller, more bite-size publications. A successful series from its very first published entry, the Little Blue Book Series has gone on to become a symbol of Astronist commercial literature and a way for Cometan's words to reach readers of all ages and abilities who remain daunted by the beauty and yet the sheer extensiveness of the Omnidox as the longest religious text in history.

Terminal Sedation: Euthanasia in Disguise? Torbjörn Tännsjö, 2004-06-01

TERMINAL SEDATION DURING THE 1990s During the 1990s a discussion took place in scholarly journals concerning a measure within palliative care that had earlier attracted little attention to wit the sedation of dying patients There seem to have been two main reasons why the practice came under debate On the one hand some people felt that when palliative medicine had advanced and methods to control symptoms had improved it was no longer justified to sedate the patients in a manner that had often been done in the past The system of 1 terminal sedation had turned into euthanasia in disguise or slow euthanasia On the other hand there were people sympathetic to the recently established Dutch system of euthanasia people who agreed that terminal sedation was euthanasia in disguise but who felt that if it is not objectionable to sedate dying patients at their request then why should it not be permitted for doctors to kill dying patients at 2 request From these two motives a discussion about terminal sedation gained momentum The intention behind this anthology is to continue and deepen this discussion The anthology starts off with a chapter where an influential article from the 1990s has been reprinted

**Order and History** Eric Voegelin, 2000 Annotation In Search of Order brings to a conclusion Eric Voegelin's masterwork Order and History Voegelin conceived Order and History as a philosophical inquiry concerning the principal types of order of human existence

in society and history as well as the corresponding symbolic forms In previous volumes Voegelin discussed the imperial organizations of the ancient Near East and their existence in the form of the cosmological myth the revelatory form of existence in history developed by Moses and the prophets of the Chosen People the polis the Hellenic myth and the development of philosophy as the symbolism of order and the evolution of the great religions especially Christianity This final volume of *Order and History* is devoted to the elucidation of the experience of transcendence that Voegelin discussed in earlier volumes He aspires to show in a theoretically acute manner the exact nature of transcendental experiences Voegelin's philosophical inquiry unfolds in the historical context of the great symbolic enterprise of restating man's humanity under the horizon of the modern sciences and in resistance to the manifold forces of our age that deform human existence His stature as one of the major philosophical forces of the twentieth century clearly emerges from these concluding pages In *Search of Order* deepens and clarifies the meditative movement that Voegelin now in reflective distance to his own work sees as having been operative throughout his search Because of Voegelin's death on January 19 1985 *In Search of Order* is briefer than it otherwise might have been however the theoretical presentation that he had set for himself is essentially completed here Just as this volume serves Voegelin well in his striking analyses of Hegel Hesiod and Plato it will serve as a model for the reader's own efforts in search of order
