

Observation in Theory

Name of Child: Maya

Date: 25/09/2015

Experience: Cutting

DOF: 02/10/2015

Observation

"I want to do cutting, please" Maya asked. "Sure, lets find some paper for you to cut" Lorina replied. "and glue for paper" Maya commented. Maya sat at the table and picked up the scissors with her right hand. She put her thumb through the top hole of the scissors and index and middle finger through the bottom hole. Maya held the paper with her left hand and began cutting with her right. "Paper falling" Maya said. "Hold the paper closer" Lorina commented. Maya began cutting again. She cut a piece from the paper "Yay, I did it, good job" Maya said with a smile. "Glue time" Maya used the glue to stick the pieces of paper she had cut onto the paper, "So, pretty" Maya said.

Interpretation

Through this experience it is evident that Maya manipulates equipment and manages tools (scissors) with increasing competence and skills (3.2.7) - "She put her thumb through the top hole of the scissors and index and middle finger through the bottom hole". Maya celebrates and shares her contributions and achievements with others (1.3.8) - "Yay, I did it, good job" and she follows and extends upon her own interests with enthusiasm, energy and concentration (4.1.4) - "Glue time... Maya used the glue to stick the pieces of paper she had cut onto the paper".

Follow Up

Continue to provide opportunities for Maya to practice and develop her cutting skills. Give her a range of mediums to use for cutting such as newspapers, play-dough, magazines etc.
