Pastoral Care Dr. Karen D. Scheib, 2016-02-16 Christian pastoral care is a narrative ecclesial theological practice. As a narrative practice, pastoral care attends to the inseparable interconnection between our own lifeworlds, others' stories, the larger cultural stories, and God's story. As a ministry of the church, pastoral care is an ecclesial practice that derives its motivation, purpose, and identity from the larger mission of the church to bear witness to and embody God's mission of love that extends beyond the church for the transformation of the world. As a theological practice, pastoral care is grounded in God's love story. God's profound love for humankind heals our brokenness when human love fails and invites us into an ongoing process of growth in love of God, self, and neighbor. Intended for those who provide care with and on behalf of religious communities, author Karen Scheib focuses on listening and restorying practices occurring in the context and setting of congregations. By coauthoring narratives that promote healing and growth in love, pastoral caregivers become cocreators and companions who help others revise and construct life stories reshaped by the grace of God. What Karen Scheib has done in this book is to reposition pastoral care as a theological activity performed in the context of the church. She draws deeply upon her Wesleyan theological heritage upon an understanding of life in its fullness as growth in love and grace and upon a communion ecclesiology undergirded by a communal understanding of the Trinitarian life of God. Thus grounded, she envisions pastoral care first as a rhythm of the life of the whole church and secondarily as a work of trained pastors. In her vision, pastoral care is rescued from a narrow understanding of it as exceptional acts of intervention performed only in moments of dire crisis. Instead, it becomes a daily practice of pastoral care: attending in love to the stories of others and listening for ways God is already present in a life story. Solidly theological, grounded in the life of the church, and eminently teachable, Karen Scheib has given us a great gift in this book.

Foreword: Thomas G. Long, Bandt Professor of Preaching, Emeritus, Candler School of Theology, Emory University, Atlanta, GA. In a wonderfully engaging, reflective, and useful way, Karen Scheib captures something absolutely essential to pastoral care and yet often overlooked: the utter centrality of storytelling, listening, the power of stories to heal, and their vital connection to bigger stories told within religious communities. This book is a real milestone, reclaiming the importance of narrative knowing and grounding care not only in community but also within a comprehensive theological framework.

Bonnie J. Miller-McLemore, E. Rhodes, and Leona B. Carpenter, Professors of Religion, Psychology, and Culture, The Divinity School and Graduate Department of Religion, Vanderbilt University Divinity School, Nashville, TN. Implementing narrative, personality, and therapy theories and anchored in ecclesiology and Wesleyan theology, NET: Karen Scheib's book advances a long-awaited and holistic approach to pastoral care. Her NET approach presents the embodiment of pastoral care by emphasizing both narrative and paradigmatic knowing, proposes the subjectivity of our stories in pastoral care by pointing out the interchangeability between us and our stories as subject and object, and underscores the dynamic process of pastoral care through the interconnection of the storyteller, listener, and context. Scheib's image of story companion contributes to the field as a new paradigm of pastoral care and promises to be a significant

resource in generating hope and growth in love for both pastoral caregiver and receiver Angella Son Associate Professor Drew University Madison NJ Pastoral theologian Scheib describes a narrative ecclesial and theological approach for listening to people's life stories in such a way as to engender spiritual formation and growth in love Scheib clarifies the connections between caring conversations and Christian theology Clear and accessible prose as well as helpful exercises and discussion starters make this a fine teaching text *The Christian Century* Sept 29 2016

models of practice are labeled as transdisciplinary Transdisciplinary models provide ways to develop conceptualizations of psychosocial practice issues practice language and approaches that are shared across disciplinary boundaries New in the completely updated Fourth Edition Contains models and practice approaches that are useful in enabling occupational therapists to address psychosocial concerns relevant to human occupation Explores the psychological emotional and social experiences of humans carried out in context and their linkages to occupational engagement and well being Puts forward practice models that focus on person level aspects of occupation in psychosocial practice Examines transdisciplinary models and their relationship to psychosocial occupational therapy concepts and practices Presents well established models and frameworks that focus on population and contextual level factors relevant to psychosocial occupational therapy practice Discusses occupational therapy intervention approaches flowing from these models relevant tools and practices and where available the supporting evidence base Included with the text are online supplemental materials for faculty use in the classroom With its updated models and a wide range of practice areas Bruce Borg s Psychosocial Frames of Reference Theories Models and Approaches for Occupation Based Practice Fourth Edition is the perfect resource for the occupational therapist student faculty and clinician or any practitioner in psychosocial and mental health **Crisis** Lee Ann

Hoff,2014-08-29 Unlike books focusing on a single crisis topic Crisis helps recognize common signs of endangerment across a range of life challenges by showing the interconnections between various harmful events Through media coverage of school shootings suicides domestic abuse workplace violence and more we ve become accustomed to hearing about violence and trauma almost invariably followed by reports that show all of the warning signs that were missed While it is impossible to predict when where and with whom a crisis will occur we do have the means to be better equipped to intervene in stressful situations before they tip over into a crisis Important preventative information is readily available and this book better prepares us to take appropriate responsive action Often a crisis is the result of a critical life event whether or not a life changing event turns into a crisis depends on the type timing and interpretation of the event the person s life cycle development phase history of healthy coping and available timely support In sum Lee Ann Hoff illustrates how to recognize crisis as both danger and opportunity The more we know about how to spot a potential crisis and what to do the more likely distressed persons will get the help they need Crisis Education and Service Program Designs Miracle R.
