**The Cook Book of Rare and Valuable Recipes** An Eminent Physician, 2013-10-15 This volume in the American Antiquarian Cookbook Collection published in Philadelphia in 1850 is an exhaustive compilation of hundreds of methods, formulas, and recipes for culinary housekeeping, agricultural, and medical issues of importance in nineteenth-century households assembled by an unknown physician. In his introduction, the eminent physician cited as compiler of this fascinating volume states: "There was a time when ladies knew nothing beyond their own family concerns but in the present day there are many who know nothing about them. His intention was to supply every possible bit of information about housekeeping, homemaking, farming, and medical care that contemporary women seemed to lack. His work contains hundreds of procedures, advice, and recipes organized in a whimsical hodgepodge without a table of contents or index to guide the reader. For example, a recipe for an excellent tooth powder is sandwiched in between a method of cleaning china and how to stain paper. Similarly, pickling tomatoes can be found between means of stopping a runaway horse and grafting grapevines. It makes an engrossing, entertaining read that provides an intriguing portrait of nineteenth-century lifestyles. Although many medical entries appear throughout the text, the final 20 percent of the book appears to be an independent and uncredited work entitled *The Family Physician*; such plagiarism was common in nineteenth-century publishing. In fact, the disorganization of the material makes it likely that the entire contents of the book were taken from an existing volume or a number of sources and the compiler simply collected other authors' work in this encyclopedic treasury. This edition of *The Cook Book of Rare and Valuable Recipes* was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the society is a research library documenting the lives of Americans from the colonial era through 1876. The society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection comprises approximately 1,100 volumes.
