12 months from reading this article is going to be 12 months from reading this article no matter which way you look at it You cannot change that However what you are doing and where you will be when that 12 month mark arrives is the variable that can be controlled What you do within that 12 months is controlled entirely by you You can either be in the same situation or you can slowly chip away at what can appear to be an impossible task so that by the time the inevitable arrives you are in a completely different situation The choice is yours and its time to take control Regardless of your current situation when it comes to healthy eating it s never too early and it s never too late
