**Political Parties** Richard Gunther, José Ramón Montero, Juan José Linz, 2002

**Political Parties** Richard Gunther, 2002

*Political Parties in the New Europe* Kurt Richard Luther, Ferdinand Müller-Rommel, 2002 The scope and intensity of the challenges currently faced by western European political parties is exceptionally large threatening the viability of the manner in which they have traditionally operated and causing them to seek new behaviours and strategies This volume brings together some of the foremost scholars of European party politics whose evaluation of political parties in the new Europe is organised under four broad headings Parties and Society Parties as Purposive Organisations Parties and National Government and Parties the Nation State and Beyond The contributors review the latest empirical findings and provide a concise critical review of the theoretical and methodological state of the art They also highlight the analytical challenges confronting party researchers and suggest new avenues for party research

*Political Parties in Advanced Industrial Democracies* Paul Webb, David Farrell, Ian Holliday, 2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world's advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer's normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as continuing to play a central role while those who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics The General Editors are Max Kaase Vice President and Dean of Humanities and Social Sciences International University Bremen and Kenneth Newton Professor of Government at Southampton University The series is published in association with the European Consortium for Political Research

**Political Parties in Post-Uprising Tunisia and**

**Morocco** Giulia Cimini, 2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since

the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By dwelling into a topic long neglected the author provides insight into the hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics

**Portugal at the Polls** André Freire, Marina Costa Lobo, Pedro Magalhães, 2007-01-01 Portugal at the Polls is a timely evaluation of the quality of Portuguese democracy Measuring both political attitudes and electoral behavior this volume addresses one of the most central features of democracy the relationship between citizens and institutions Editors Andre Freire Marina Costa Lobo and Pedro Magalhaes take full advantage of the first Portuguese post electoral academic survey to complete this study Moreover the study theoretically analyzes the contribution of behavioral and political attitudes to the particular 2002 election as well as Portuguese democratic politics in general While each chapter explores specific details the chapters generally fall into one of two over arching themes The first theme contextualizes Portugal in a greater trend of elections being based on candidate image and economic performance at the cost of long term social goals The second theme incorporates Portugal into recent scholarship of other industrial democracies which has amassed an important body of evidence about growing political dissatisfaction and disengagement of citizens The editors have synthesized the important but fragmentary scholarship addressing Portugal s political malaise Portugal at the Polls is essential reading for any scholar interested in contemporary

Portuguese politics      *On Parties, Party Systems and Democracy* Peter Mair, 2014-09-01 This collection brings together some of the most significant and influential work by leading comparativist Peter Mair 1951 2011 The selection ranges from considerations on the relevance of concept formation to the study of party systems and party organisations and from reflections on the democratic legitimacy of the European Union to the future of party democracy Including frequently cited papers alongside lesser known work the writings collected in this volume attest to the broad scope and depth of Mair's insights into comparative party politics and the changing realities of party government As such they form an important and enduring contribution to the study of politics and a fitting tribute to an inspirational and much missed figure in the global political science community Edited and introduced by Ingrid van Biezen with an intellectual portrait of Peter Mair by Stefano Bartolini and Hans Daalder      **Political Parties and Euroscepticism** L. Topaloff, 2012-07-06 An exploration of what drives party based Euroscepticism and why some parties are Eurosceptic This book looks at what makes mainstream opposition parties careful not to appear Eurosceptic and asks whether Euroscepticism is an aberration of politics an extreme populist ideology or just politics as usual      *Presidents, Parties, and Prime Ministers* David J. Samuels, Matthew S. Shugart, 2010-05-17 This book provides a framework for analyzing the impact of the separation of powers on party politics Conventional political science wisdom assumes that democracy is impossible without political parties because parties fulfil all the key functions of democratic governance They nominate candidates coordinate campaigns aggregate interests formulate and implement policy and manage government power When scholars first asserted the essential connection between parties and democracy most of the world's democracies were parliamentary Yet by the dawn of the twenty first century most democracies had directly elected presidents David J Samuels and Matthew S Shugart provide a theoretical framework for analyzing variation in the relationships among presidents parties and prime ministers across the world's democracies revealing the important ways that the separation of powers alters party organization and behavior thereby changing the nature of democratic representation and accountability      Political Parties in Africa Sebastian Elischer, 2013-09-09 This book examines the effects of ethnicity on party politics in sub Saharan Africa Sebastian Elischer analyzes political parties in Ghana Kenya and Namibia in detail and provides a preliminary analysis of parties in seven other countries including Tanzania Botswana Senegal Zambia Malawi Burkina Faso and Benin Elischer finds that five party types exist the mono ethnic the ethnic alliance the catch all the programmatic and the personalistic party He uses these party types to show that the African political landscape is considerably more diverse than conventionally assumed Whereas ethnic parties dominate in some countries non ethnic parties have become the norm in others This study also finds a correlation between a country's ethnic make up and the salience of political ethnicity countries with a core ethnic group are prone to form non ethnic parties In countries lacking a core ethnic group ethnic parties constitute the norm      **Turkish Politics and the Rise of the AKP** Arda Can Kumbaracibasi, 2009-09-10 The Justice and Development Party AKP has been in power since 2002 This book is the

first book length analysis to chart the rise and development of the party from its Islamist roots through to government analysing in particular its internal organisation and dynamics Since its foundation in 2001 the AKP seems to have been more successful than any other party with an Islamic background in the history of the Turkish Republic Drawing on interviews and analyses of quantitative data from primary and secondary sources the author examines the party's character as an organisation its internal power structure its electoral roots strategy and leadership in the context of its organisational environment including its constitution major veto players as well as international actors Going beyond a mere analysis of Turkish politics and parties this book applies classical theories and models on political parties to the Turkish case Focusing on the notion of institutionalisation and its two main dimensions autonomy and systemness it makes an original contribution to both the empirical study of the AKP contemporary Turkish Politics and the general discussion on theories of party organisation
