The Perfect Fit for Knitting Totally Modern Patterning for Designer Essential Techniques, 2024-01-04 Introduction It s all in the details The use of what designers call fully fashioned shaping marks the difference between an ordinary ho hum sweater and an undeniably spectacular fashion garment Using mirrored increases and decreases slanting certain stitches toward the left or the right to create design details can easily give a garment a couture touch It is the construction difference between an 80 J Crew cashmere V neck sweater and the one that sells for 200 in the same catalog Though both are knitted out of the same soft yarn the less expensive sweater is usually made by assembling front back or sleeve pieces cut from huge bolts of machine knit fabric and then sewn with a serger while the more expensive sweater is created with hand manipulated machine made knitting stitches Many handknitters already use shaping details in their garments decreases for armholes necklines or sleeve caps and increases for sleeves We don t cut our pieces into shape we knit them into shape But most knitters do not understand how shaping works or how to use simple increases and decreases to add visual interest to their garments I ve taught these techniques to hundreds of knitters and during my workshop they begin to look at their knitting in a whole new way I still remember that exciting aha moment when a student in one of my classes worked her first fully fashioned V neckline a few years ago It s so neat and perfect she proudly proclaimed In these pages we will explore simple fully fashioned techniques and how to apply them to create interesting designer elements and flattering shaping details in garments for any body shape You will learn that just adding a few extra
