The bumper bar, which is in the form of a front spoiler, is to create a front end of the vehicle. It prevents the main air-stream from the front of the vehicle. The aerodynamic shape of the running gear and the floor assembly of the vehicle is increased when travelling in a straight line at speeds above 150 km/h.

The bumper bar must ensure that the vehicle continues to conform to the vehicle regulations of the country concerned.

The bumper bar must carry no special markings. To prove that original Porsche bumper bars are used, the receipt is to be produced or a certified inspection report by a Porsche agent.
