Market Power in EU Antitrust Law Luis Ortiz Blanco,2011-12-02 The notion of market power is central to antitrust law
Under EU law antitrust rules refer to appreciable restrictions of competition Article 101 1 Treaty on the Functioning of the
European Union TFEU ex Article 81 1 EC Treaty the elimination of competition for a substantial part of the market Article
101 3 TFEU ex Article 81 3 EC dominant positions Article 10 2 TFEU ex Article 82 EC and substantial impediment to
effective competition in particular by creating or reinforcing a dominant position Article 2 of the EU Merger Regulation At
first sight only the concept of dominant position relates to market power but it is the aim of this book to demonstrate that the
other concepts are directly linked to the notion of market power This is done by reference to the case law of the EU Courts
and the precedents of the European Commission The author goes on to argue that for very good reasons clarity and
enforceability among others the rules should be interpreted in this way Beginning with market definition the book reviews
the different rules and the different degrees of market power they incorporate Thus it analyses the notion of appreciable
restriction of competition to find a moderate market power obtained by agreement among competitors to be the benchmark
for the application of Article 101 TFEU ex Article 81 EC It moves on to the concept of dominance under Article 102 TFEU ex
Article 82 EC which is equivalent to substantial or significant market power and then focuses on the old and new tests for EU
merger control Finally it addresses the idea of elimination of competition in respect of a substantial part of the market Article
101 3 TFEU ex Article 81 3 b EC in which the last two types of market power Article 102 TFEU ex Article 82 EC and EU
Merger Regulation converge To exemplify this an in depth study of the notion of collective dominance is conducted The book
concludes that a paradigm of market power exists under the EU antitrust rules that both fits with past practice and provides
for a useful framework of analysis for the general application of the rules by administrative and even more importantly
judicial authorities in the Member States under conditions of legal certainty The Global Gender Gap Report 2008 Ricardo
Hausmann,2008 The Index benchmarks national gender gaps on economic political education and health based criteria and
