Korb, 2011 This is a print on demand edition of a hard to find publication Restoring America's economic health will require dealing with our federal budget deficit over the long term Reducing that deficit will require reducing the projected level of defense spending over the next 5 years The defense budget can and should be reduced without harming national security for 3 reasons 1 The portion of the world's military expend the U S consumes compared to our potential adversaries has grown from 60% to 250% so even if the U S were to cut its spending in half it would still be spending more than its adversaries 2 The global security environment has changed so we can reduce the overall size and deployment posture of our armed forces 3 Significant tech advances make our fighting forces far more efficient than even in the near past **Congress and the Nation 2009-2012, Volume XIII** Dave Tarr, 2014-09-09 Chronicling the highly partisan and polarized environment during the historic first term of President Barack Obama Congress and the Nation 2009 2012 Volume XIII is the most authoritative reference on congressional law making and trends during the 111th and 112th Congresses The newest edition in this award winning series documents the most fiercely debated issues during this period including Stimulus spending in the wake of financial crisis The controversial reform of the U S healthcare system Showdowns over raising the national debt ceiling Extensions of tax cuts and unemployment compensation Confirmation of two new female members of the U S Supreme Court Overhaul of financial industry regulations Repeal of the don't ask don't tell law banning openly gay armed forces personnel from military service This acclaimed resource also covers the shift in partisan control of the U S House after the 2010 midterm election and the subsequent gridlock for lawmaking in the 112th Congress Organized by policy area each chapter summarizes the legislative activity including a chronology and legislative history of the bills passed and the major provisions of the final laws No other source guides readers seamlessly through the policy output of the national legislature with the breadth depth and authority of Congress and the Nation This must have reference for all academic libraries meets the needs of the full spectrum of users from lower level undergraduates through researchers and faculty *Operational Contract*

Peña, 2007 According to President Bush the American people are safer as a result of invading Iraq True Saddam Hussein has been removed from power But al Qaeda the group that planned and carried out the attacks on September 11 remains at large Meanwhile the White House has conceded that Saddam Hussein had nothing to do with the attacks Charles Peña argues that the war in Iraq is but one misstep in the Bush administration s global war on terror Terrorism is simply a tactic however not an enemy Trying to eradicate it is a quixotic quest that does not focus on those responsible for 9/11 Instead the national security strategy should consist of three central elements establishing homeland security against further attacks dismantling the al Qaeda terrorist network and enacting a foreign policy that does not attract new al Qaeda terrorists This approach requires restructuring U S forces and ending Cold War era commitments that distract from the current pressing threat It also requires ameliorating the negative consequences of an interventionist U S foreign policy which creates incentives and opportunities for terrorists to target the United States If we misdiagnose al Qaeda s motivations or focus military efforts on the wrong targets then we run the risk that the war against the al Qaeda terrorist threat and the radical Islamic ideology it represents will become a broader war against the Islamic world that could last generations and cost countless lives With a foreword by Michael Scheuer the
