such as the absence of lesbian gay bisexual transgender and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen This book has been updated to reflect the wealth of new YA literature that has been published since the first edition appeared in March 2012 and to reflect new trends in technology that influences how adolescents are reading and responding to literature *The World Almanac and Book of Facts 2016* Sarah

continue to affect contemporary politics In *The Bad Sixties Hollywood Memories of the Counterculture Antiwar and Black Power Movements* Kristen Hoerl focuses on fictionalized portrayals of 1960s activism in popular television and film Hoerl shows how Hollywood has perpetuated politics deploring the detrimental consequences of the 1960s on traditional American values During the decade people collectively raised fundamental questions about the limits of democracy under capitalism But Hollywood has proved dismissive if not adversarial to the role of dissent in fostering progressive social change Film and television are salient resources of shared understanding for audiences born after the 1960s because movies and television programs are the most accessible visual medium for observing the decade s social movements Hoerl indicates that a variety of television programs such as *Family Ties* *The Wonder Years* and *Law and Order* along with Hollywood films including *Forrest Gump* have reinforced images of the bad sixties These stories portray a period in which urban riots antiwar protests sexual experimentation drug abuse and feminism led to national division and moral decay According to Hoerl these messages supply distorted civics lessons about what we should value and how we might legitimately participate in our democracy These warped messages contribute to selective amnesia a term that stresses how popular media renders radical ideas and political projects null or nonexistent Selective amnesia removes the spectacular events and figures that define the late 1960s from their motives and context flattening their meaning into reductive stereotypes Despite popular television and film Hoerl explains memory of 1960s activism still offers a potent resource for imagining how we can strive collectively to achieve social justice and equality

stand shoulder to shoulder against terrorism or be damned Tariq Ali challenges these assumptions arguing instead that what we have experienced is the return of History in a horrific form with religious symbols playing a part on both sides Allah's revenge God is on Our Side and God Bless America The visible violence of September 11 was the response to the invisible violence that has been inflicted on countries like Afghanistan Pakistan Iraq Saudi Arabia Egypt Palestine and Chechnya Some of this has been the direct responsibility of the United States and Russia In this wide ranging book that provides an explanation for both the rise of Islamic fundamentalism and new forms of Western colonialism Tariq Ali argues that many of the values proclaimed by the Enlightenment retain their relevance while portrayals of the American Empire as a new emancipatory project are misguided
