#### What is a Fan Assisted Draft Inducer?

Standard gas water heaters produce extremely hot air during combustion, which moves the combustion gases quickly up the chimney. The XR90 is much more efficient (i.e. it puts more heat in the water and less heat up the chimney).

A proprietary baffle and flue design retains the heat longer, therefore a device is needed to properlithe air and passes upward.

Fan assisted draft inducer creates the proper draft to expel the combustion cases.

#### Guardian System<sup>®</sup> & Sensor

- Exclusive air/fuel shut-off device for double protection
- Maintenance free no filter to clean
- Protective control system that disables the heater in the presence of flammable vapor accumulation
