Persuasions of God Paul Lynch,2024-02-20 The nations of the global north find themselves in a post secular or post Christian period one in which the practice expression and effects of religion are undergoing massive shifts In Persuasions of God Paul Lynch pursues a project of theorhetoric a radical new approach to speaking about the divine Searching for new religious forms amid the lingering influence of Christianity Lynch turns to Ren Girard the most important twentieth century thinker on the sacred and its expression within the Christian tradition Lynch repurposes Girard s mimetic theory to invent a post Christian way of speaking to for and especially about God Girard theorized the sacred as the nexus of violence order and sacralization that lies at the heart of religion What Lynch advocates in our current moment of religious kairos is a paradoxically meek rhetoric that conscientiously refuses rivalry actively exploits tradition through complicit invention and boldly seeks a holiness free of exclusionary violence The project of theorhetoric is to reinvent God through the reimagined

themes of meekness sacrifice atonement and holiness From these Persuasions of God offers religion reimagined for our post secular age An interdisciplinary mix of philosophy sociology rhetorical studies and theology this book draws on mimetic theory to answer the question of where religion goes next It will be valued by religious studies and communications scholars as well as anyone interested in the future of Christianity in our modern world **Metaphor and Knowledge** Ken Baake,2012-02-01 Metaphor and Knowledge offers a sweeping history of rhetoric and metaphor in science delving into questions about how language constitutes knowledge Weaving together insights from a group of scientists at the Santa Fe Institute as they shape the new interdisciplinary field of complexity science Ken Baake shows the difficulty of writing science when word meanings are unsettled and he analyzes the power of metaphor in science Professional Development in Online Teaching and Learning in Technical Communication Beth L.
