How Not to Totally Put Your Children Off God Howard Worsley,2020-04-17 Parenting can be the best or worst of times It can be a role we love best or one that causes great insecurity There is no formal training for parenthood There are no clear benchmarks of success and yet it demands all our resources skills and attention Parenting has no blueprint This book is the merging of the author s deep convictions of parenting with examples of both When it worked and When it did not work He has also elicited the help of his sons to write their perspectives on how their experiences and memories connect or differ from his own Each chapter has two sections Section A contains reflections on habits that seemed to work in passing on faith Section B then reflects on the same habit but from a more critical perspective These five chapters come from the author s experiences as a dad as a Christian leader and as a theologian The first section in each chapter marks those habits that he believes in passionately They are the Do s those habits formed in parenting for faith They emerged in the business of parenting and have become clearer over life The second section notes when parenting seemed to go wrong These are the nightmares that skulk around the edges of a parent s consciousness the failures when high hopes are not realised However it could be that in these cock ups in being a parent are when the actual parenting for faith is really carried out That at least is the comment made by the three sons commenting on the script

The Philosophy of Indoctrination Chris Ranalli,2024-12-16 This book develops and defends a novel social epistemological account of indoctrination It answers important epistemological ethical and political questions about what indoctrination is why it is epistemically harmful how it can be practiced and how we should talk about indoctrination The author presents three views related to the epistemology of indoctrination First he argues that indoctrination is most fundamentally a structural epistemic phenomenon which results in closed minded beliefs The sources of indoctrination are

diverse institutional structures technological systems ideological frames and individual actions What unites them is that they lead to the systematic failure to consider seriously the relevant alternatives to what we are taught whether by accident or by design Second he makes the case that indoctrination is always wrong because it disrespects agents in their capacity as epistemic agents even when it results in true belief Third and finally he contends that public indoctrination ascriptions are political propaganda they function to promote political agendas which can ironically breed the conditions for indoctrination rather than forestall it The Philosophy of Indoctrination is an essential resource for researchers and advanced students working in social and political epistemology ethics political philosophy philosophy of education and terrorism and radicalization studies

Mediocre Great England Abiodun Olayinka Bamgbelu, 2015-10-28 He Briton is a barbarian and believes that the customs of his tribe and Island are the laws of nature George Bernard Shaw The best argument against democracy is a five minute conversation with the average voter Sir Winston Churchill Corroborating the words of George Bernard Shaw Sir Winston Churchill implied that the average Briton was indeed a moron Also supporting Churchill's observation is the Organisation for Economic Cooperation and Development OECD which found that young adults in England are amongst the least literate and numerate in the industrialised world Mediocre Great England the latest book by Yinka Bamgbelu criticizes the legal system in Britain as well as the racism found in its institutions The highest reach of injustice is to be deemed just when you are not Plato Lies are told in criminal cases Lies are told in civil cases Lies are told all the time Sir Michael Havers Attorney General 1980 I don't think anyone will dispute that lots and lots of people are denied justice Sir David Napley The entire book is a letter to Dr Anand Kamath a 42 year old dentist who was seemingly and mercilessly hounded to death by white collar racist thugs Dr Stephanie Twidale another dentist could not spell and could not write legibly unrelentingly lied under oath What is the value of an illegible record by a dishonest semi illiterate expert Any legal system Third World included which tolerates dishonesty under oath is intellectually flawed and unsafe Competent administration of the law is an inviolable fundamental right This and no other is the root from which a tyrant springs when he first appears he is a protector Plato

The Politics of New Atheism Stuart McAnulla, Steven Kettell, Marcus Schulzke, 2018-07-04 New atheism is best known as a literary and media phenomenon which has resulted in the widespread discussion of the anti religious arguments of authors such as Richard Dawkins Sam Harris and Christopher Hitchens yet it also has strongly political dimensions This book analyses the political aspects of new atheism and offers an analysis that is informed by insights from political science and political theory The authors locate new atheism within a diverse history of politically oriented atheisms It is argued the new atheist movement itself contains a considerable variety of political viewpoints despite coalescing around forms of secularist campaigning and identity politics New atheist views on monotheism public life morality and religious violence are examined to highlight both limitations and strengths in such perspectives Conservative feminist and Marxist responses to new atheism are also evaluated within this critical analysis The book rejects

claims that new atheism is itself a form of fundamentalism and argues that the issues it grapples with often reflect wider dilemmas in liberal left thought which have ongoing relevance in the era of Trump and Brexit It will be of great interest to researchers and scholars in the fields of new atheism political atheism secularism non religion and secular religious tensions

The Mythology of God Derrick van Zyl, 2017-11-30 Man has been creating gods for

the last 40 000 years in order to make sense of himself and to explain life as it was primitively perceived before science developed knowledge expanded and with it our factual understanding of where we come from who we are and how we came to be here on our little blue planet Not a single god had anything to do with creating you or anything at all for that matter Not even your god the one you were brought up and indoctrinated with This book is an attempt to firstly explain how the universe was formed How planets and eventually us evolved over a period of 13 73 billion years based on facts derived from science verified peer reviewed and corroborated and by also coming to the same conclusions using vastly different methods as opposed to creationist fairytales and superstition If you understand the basics of evolution then the second part in which Islam and Christianity are exposed for what they are may give you some perspective of how religion poisons everything in the words of the late great Christopher Hitchens This book is not only a consciousness raiser regarding the delusion that religion imposes and the biblical past and current violence it perpetually perpetrates despite its desperate claims to the contrary but also hopefully will help to eradicate its theocratically skewed fundamentalism where extremism finds its wings It s a book about truth It is about morality and intellectual honesty and unveiling the mask of religion and exposing the delusion of blind faith through reason Exposing these religions with their cult like delusional inaccuracies cannot be underestimated Our future as a species depends on it In the words of Stephen Roberts When you understand why you dismiss all the other possible gods you will understand why I dismiss yours Put your belief in people and love Imaginary gods do not deserve them Quote The amount of research that went into this book is prodigious exceeding what I have seen in volume and scope in all of the PhD theses that I edited over the years Editor s comment
